UCSF Newsbreak

Includes new UCSF Education Center

BIG construction project to begin soon

Have you been wondering, "Whatever happened to that space where the old library used to be?"

Well, hold onto your construction hats, because that area of the campus and a few other stretches will be under major construction beginning in about 10 weeks.

By the time the weekend of July 4th rolls around, you will witness a number of changes, primarily in the Medical Sciences lobby and Saunders Courtyard. The construction and renovation is all part of a $30 million project, funded primarily through bonds California voters approved last June through Proposition 153.

The full scope of the project includes a new UCSF Education Center on the first and second floors of Medical Sciences — complete with 18 classrooms, a new computer teaching laboratory, plus seven laboratories for a variety of School of Medicine departments. It also will involve construction on the second and third floors of Health Sciences East and the second floor (ground level) and third floor mezzanine of the School of Nursing building.

At a time that *anyone* would be hard-pressed to find space *anywhere* on this campus, the library release space and associated construction will provide approximately 40,000 square feet of sorely needed research and laboratory space, according to project manager Rob Purcell. The new Education Center itself will provide another 13,000 square feet.

Plus, in the School of Nursing you will see a new food service, an expanded student commons, and two large classrooms.

What to expect first

The weekend of July 4th is when you will first start to see things happening. That weekend, barriers will be installed in the Medical Sciences lobby eliminating access to the second floor and to the entrance to Saunders Courtyard. The Medical Sciences stairway will be demolished as will the hallway to Cole Hall.

"This area will be totally reconfigured as it eventually will become the main entrance to the new UCSF Education Center," says Purcell.

"The biggest immediate inconvenience will be that people will not be able to get from Medical Sciences to Saunders Courtyard,"

(continued on page 3)

Rob Purcell (right) talks to demolition contractor Derek Smith of Marinship Construction during a seminar for disadvantaged businesses in early April. Smith was one of several subcontractors attending the seminar to learn more about the library release space project.

Symposium to address health access for Hispanics, May 8

What are the barriers that prevent Hispanics/Latinos from receiving health care? And how can those barriers be removed? These are the main topics to be discussed by state and local Hispanic nursing leaders at a full-day School of Nursing conference on Saturday, May 8, beginning at 9 a.m. in Cole Hall.

The sixth annual Hispanic Nursing Symposium also is designed to encourage Hispanics to pursue nursing careers — or those who already are nurses to pursue advanced degrees and leadership roles.

"One of the major barriers between the Hispanic community and the health care system is the lack of Hispanic health care providers," says symposium coordinator Pilar Bernal de Pheils, assistant clinical professor of family health care nursing and recruitment coordinator for the School of Nursing. Hispanics make up nearly 25 percent of California's population, however only 4 percent of the state's nurses are Hispanic, she says. Nationwide, only 2 percent of all nurses are Hispanic.

"A larger number of Hispanic health care providers could help overcome the language barrier, fear of bureaucracy, lack of culturally sensitive care and other factors that deter many Hispanics from the health care system," says Bernal de Pheils. Nursing is especially important, she says, because nurses typically spend more time with patients. In rural areas, nurses can be the main or even sole health care providers.

The schedule for the May 8 symposium is as follows:

• 9-9:15 a.m.: Welcoming remarks by Jane S. Norbeck, dean of the School of Nursing; Helen Ripple, director of nursing and associate director of the Medical Center; and Mario Castaneda, president of the Kaiser Permanente Latino Association.

• 9:15-10:15 a.m.: "Public Health & Community Partnership." Diana Bonta, public health leadership scholar, Long Beach.

• 10:30-11:15 a.m.: "Access to Health Care for Hispanic Women: A Primary Health Care Perspective." Teresa Juarbe, a UCSF School of Nursing doctoral student and graduate research assistant at UCLA.

"Casino Night" to benefit SFGH Trauma Center

Whether you play your cards right or not, everyone will be a winner at "Casino Night" on Saturday, May 1. This special evening of gambling will benefit the SFGH Trauma Center and the Friends of the San Francisco Health Department. Hosted by, and held at, the San Francisco Bay Club, 150 Greenwich Street, the event will begin at 7:30 p.m. and run until midnight. It will feature celebrity dealers, prizes, party gifts, hors d'oeuvres, a no host bar, and a silent auction. Ticket prizes are as follows: single, Bay Club member $30; couple, member $55; single, nonmember $40; couple, nonmember $75. All tickets include $25 of free gaming chips. For further information, and to purchase tickets, call Marianne Balin at 476-5400 or Chris Wachsmuth at 476-5748.

Special Founders Day Insert

MCB air quality program begins

In response to recent tests which found very low levels of a paint chemical in air samples taken from the Mission Center Building, the campus has initiated an air quality improvement program.

Air samples taken earlier this year at MCB found the presence of Diisocyanate, a paint chemical associated with respiratory and other health problems. Although the toxin measured at levels nearly 100 times below state safety standards, some MCB employees have reported health problems consistent with exposure to the compound, including fatigue and eye, nose and throat irritation.

The MCB air intake system appears to be drawing the contaminant into the building from an automobile body and paint shop that adjoins the building property.

Work began in mid-April on a detailed engineering plan to install new air filtration systems and to overhaul MCB's ventilation system. Selection of a mechanical contractor to perform the work will be made within a few days, Senior Vice Chancellor David J. Ramsay told employees.

In addition, UCSF representatives continue to meet with the owners of Alioto's Garage & Body Shop to explore the possibility of installing a new exhaust duct system to serve the garage paint shop. UCSF administrators propose to install an exhaust system designed to direct paint fumes above the roof of MCB and prevent them from entering the building's air intakes, but several legal issues first must be negotiated with the body shop owners.

If an agreement can be reached quickly, construction of the exhaust duct system could

(continued on page 2)

Optimism, hope, pride at the AIDS Center dedication

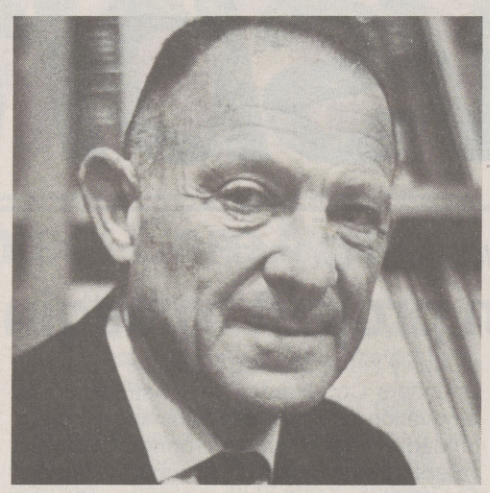
A host of dignitaries from both the city and the state were on hand to dedicate the new Gladstone Institute of Virology & Immunology at SFGH. Among those making presentations in honor of the new center — the second largest basic AIDS research unit in the country after NIH — were NIH's Anthony Fauci, Speaker of the Assembly Willie Brown, Mrs. Pete Wilson, Chancellor Krevans, Chancellor-designate Martin, Gladstone Foundation trustees Richard Brawerman, Albert Dorman and Richard D. Jones, and the center's director Warner Greene. Above, intently listening to the proceedings are Mark Goldsmith (second from right) assistant director of the new center, with the four AIDS investigators whom Green recruited to work at the center (left to right) Raul Andino, Alan Frankel, Mark Feinberg and John Young.

Gazette

Honors & Awards

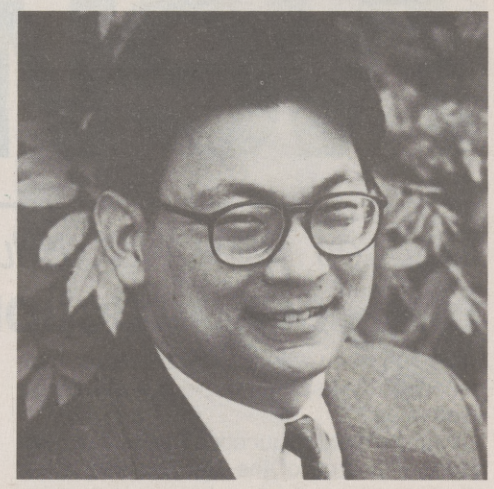
John M. Jemerin: Received a National Institute of Mental Health Scientist Development Award for Clinicians, which provides salary and research support for five years. His research focuses on pediatricians' recognition of infants at risk for behavioral and emotional disorders. Jemerin is assistant professor, pediatrics & psychiatry.

John H. Karam: To receive the 1993 Award for Outstanding Physician Educator in the Field of Diabetes from the American Diabetes Association at their annual meeting in Las Vegas in June. The award recognizes his 25 years as principle diabetes author for Lange Medical Publications. Karam is professor emeritus, medicine; member, Metabolic Research Unit; director, Dorothy Frank Diabetes Fellowship Training Program; advisory board chair, Diabetes Center.



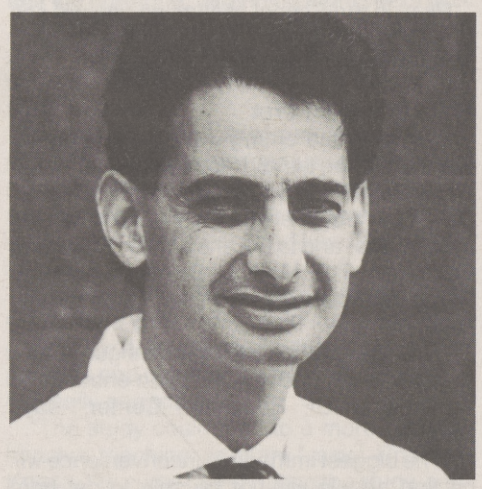
Marvin H. Sleisenger: Named Distinguished Physician of the Department of Veterans Affairs. He also was elected Honorary Fellow of the Royal College of Physicians of London and will be inducted during a ceremony in London on June 2. Sleisenger is professor, medicine & CRI.

Appointments



Kelvin C. Lee: Appointed chief, otolaryngology, SFGH. He oversees resident and medical student training activities and directs the department's clinical and research programs. His special interests focus on infectious diseases of the head and neck, sinusitis and maxillofacial trauma. In addition to his new position, Lee serves as assistant clinical professor & residency coordinator, otolaryngology.

Sunil Kapila: Received the 1993 Hatton Award from the American Association for Dental Research for his studies on the mechanisms for matrix degradation of the temporomandibular joint disc. Kapila is assistant professor, growth & development, and is completing his doctoral studies in oral biology.



Michael Cher: Received a two-year fellowship award from the American Foundation for Urologic Disease, Inc. to study the genetics and cytogenetics of prostate cancer. Cher is clinical instructor, urology.

Moses Grossman: Winner of the St. Geme Award for achievements in pediatric education from the Western Society for Pediatric Research. He won the same award in 1963, making him the first person in the Society's history to win the award twice. Grossman is professor & vice chair, pediatrics; chief, pediatrics, SFGH.

Walter L. Miller: Received the Albion O. Bernstein Award from the Medical Society of the State of New York for his work on the molecular biology of steroid hormone synthesis. Miller is professor, pediatrics & Metabolic Research Unit; director, Child Health Research Center.

Mardi J. Horowitz: Served as the 1993 Hasenbush Visiting Professor of Psychiatry at Harvard on February 24. He presented a major address on "Stress Response Syndromes," in addition to a number of seminars. Horowitz is professor, psychiatry; director, Center for the Study of Neurosis.

Stanton A. Glantz: His *Primer of Biostatistics, 3rd Ed.,* has won an *American Journal of Nursing* Book of the Year Award in research. The book is published by McGraw Hill, Inc., New York, NY. Glantz is professor, medicine; associate staff member, CVRI; associated faculty, Institute for Health Policy Studies.

Robert J. Lull: Received a special award from the regents of the American College of Nuclear Physicians (ACNP) for the outstanding leadership he exhibited during his tenure as president of the ACNP in 1992. Lull is clinical professor, laboratory medicine & radiology; chief, nuclear medicine; director, nuclear medicine residency training, SFGH.

Contracts & Grants

Information on contracts and grants is made available to this paper through individual departments, researchers or the funding agency.

John R. Balmes: Received $241,171 from the National Cancer Institute for "Chemoprevention Trial of Beta-Carotene & Retinol in Populations at High Risk for Lung Cancer;" $215,106 from the Health Effects Institute for "Significance of Airway Responsiveness & Airway Injury in Ozone Sensitivity;" $158,318 from California Air Resources Board for "Effects of Nitric Acid Vapor and Ozone on the Response to Inhaled Antigen in Allergic Subjects;" and an Academic Award in Environmental/Occupational Medicine for $105,509 from the National Institute of Environmental Health Sciences. Balmes is associate professor, medicine; head, occupational & environmental medicine, SFGH.

Charles E. Becker: Received $99,383 from the California Air Resources Board for "Neurological Effects of Low-Level Methanol Exposure," and $97,928 from the National Institute of Environmental Health Sciences for "Human Studies of Effects of Halocarbon Exposure." Becker is professor, medicine; head, toxicology, SFGH; director, Center for Occupational & Environmental Health.

Paul D. Blanc: Received $75,000 from the UC Tobacco-Related Research Program for "Effects of Cigarette Smoking in Low Dose Zinc Fume Inhalation;" $58,276 from NIH for "Disability Among Adults with Asthma;" and $50,000 from the National Institute for Occupational Safety & Health for "Effects of Zinc Oxide Welding Fume Inhalation." Blanc is assistant professor, medicine; acting chief, occupational medicine and pulmonary medicine.

Julia A. Faucett: Received $3,319 from NIH for "A Worksite Intervention for Symptom Reduction." Faucett is assistant professor, mental health, community & administrative nursing.

Jane A. Lipscomb: Received $56,782 from the National Institute for Occupational Safety & Health/Educational Resources Center, Inc. (NIOSH/ERC) for "Impact of Safer Devices on Workers' Attitudes and Injuries" and $5,000 from NIOSH for "An Assessment of Nurses' Educational Needs Regarding TB Infection Control." Lipscomb is assistant professor, mental health, community & administrative nursing and epidemiology & international health.

John D. Osterloh: Received $218,846 from the National Institute of Environmental Health Sciences of "Environmental Lead & Bone Activity in Man" and $40,000 for "Improved Analysis of Environmental Pb in Blood & Serum." Osterloh is associate professor of medicine & laboratory medicine; director, toxicology lab.

Dean Sheppard: Received $136,173 from the National Heart, Lung & Blood Institute for "Function of a Novel Airway Epithelial Adhesion Receptor." Sheppard is professor, medicine & Lung Biology Center.

In Memoriam

Richard Roginski: Senior administrative analyst in patient relations, he resolved patient concerns of any kind, from problems with billing to questions about inpatient or outpatient visits. He came to UCSF in 1978 as the manager of the Department of Radiology's file room, and eventually became manager of Medical Center Administration. An active volunteer with Project Open Hand and the Shanti Project, Roginski also was a photographer, exhibiting his work through the Hospitals Auxiliary in the hospital display cases. He was 44. A celebratory service for Richard and his twin bother Robert, an admitting worker supervisor who died late last year, will be held on Sat., May 1. Call Medical Center Administration at 476-2316 for information. Memorial donations may be made to Project Open Hand, 2720 17th St., SF, CA, 94110.

Symposium *(from page 1)*

• 11:15 a.m.-noon: "Dementia in the Hispanic Elderly: Barriers to Diagnosis & Treatment." I. Maribel Taussig, director of the Spanish Speaking Alzheimer's Disease Research Programs, University of Southern California.

• 1:30-2:15 p.m.: "Meeting the Health Needs of Hispanics: Interventions & Strategies." Maria Elena Ruiz, lecturer and assistant professor of clinical nursing, USC.

• 2:30-4 p.m.: Panel on Mental Health Issues. Patricia Arca, community mental health nurse, Mission Day Treatment Program, San Francisco; Nelba Chavez, director of juvenile probation, City & County of San Francisco; Manual Fimbres, professor of social work, San Jose State University; and Estela Garcia, clinical coordinator, Institute Familiar de la Raza in San Francisco.

The symposium is accredited for four hours of continuing education credit. The cost for attending the symposium, receiving the CE credit, and lunch is $20. There will be no charge for full-time students to attend the conference. To register and for more information, call Joann Ray, 476-4897.

MCB *(from page 1)*

begin by the first week in June and be completed by early August.

MCB ventilation system work will be completed in three phases as follows:

• Replace the main air filtration system on the third and fourth floors with a dual system consisting of a bag filter and a charcoal filter designed to remove paint fumes. Installation of the combination system, expected to eliminate 95 percent of particulates, is scheduled to begin the first week of May and to be completed by mid-June.

• Replace the remaining air filtration systems in the building with similar dual systems. Installation is scheduled to begin the week of May 23 and to be completed by mid-July.

• Measure and improve air flow after installation of the new filter systems is complete. Specifications for the "tune up," which may involve replacement of fans or motors as necessary, will be completed in mid-August with work beginning immediately thereafter.

UCSF is continuing to sample and test the air for a variety of compounds, but subsequent tests have turned up no significant contaminants. Results of the tests will be posted and UCSF officials will meet regularly with employees to keep them informed of the latest information. In the meantime, MCB employees who feel unwell are being told to leave the building.

UCSF *Newsbreak*

(ISSN0891-6063) Volume 8, Number 8, April 24 to May 7, 1993 (two weeks). Published by the University of California, 513 Parnassus, Room S 20, San Francisco, CA, 94143-0462, 21 issues per year — biweekly, except monthly June, July, August and December. Second-class postage paid at San Francisco, CA. POSTMASTER: Send address changes to UCSF *Newsbreak*, News & Public Information Services, University of California, San Francisco, 513 Parnassus, Room S 20, San Francisco 94143-0462.

Deadline for the next issue, which will cover May 8-21, will be on **Tuesday, April 27, at 11 a.m.** Please send campus news copy to Allen Balderson, Medical Center news to Dawn Finch and calendar and gazette items to Michele Firpo, all at Box 0462. Last-minute copy can be taken over the telephone by calling 476-1541. The University of California is an affirmative action/equal opportunity employer.

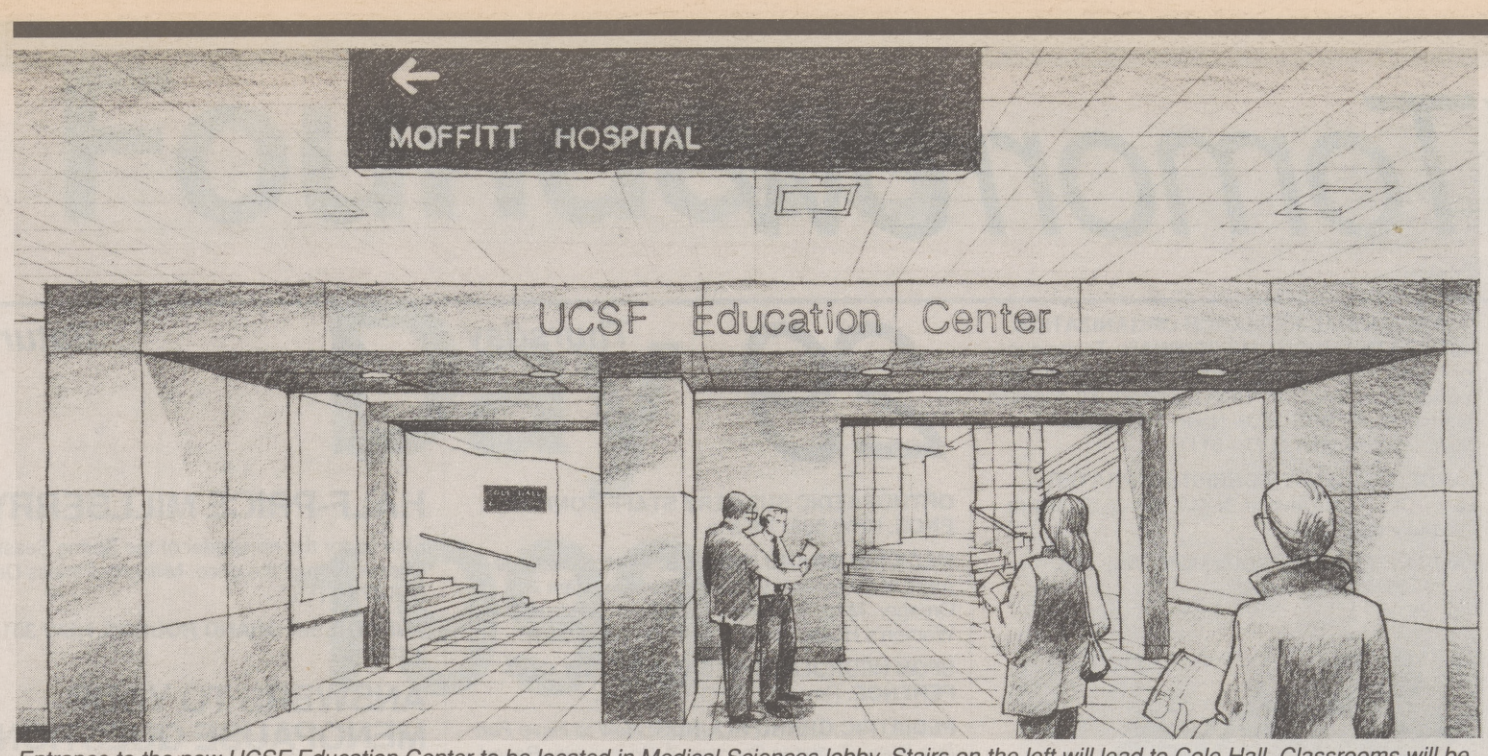
Jeff Miller, principal publications coordinator



Entrance to the new UCSF Education Center to be located in Medical Sciences lobby. Stairs on the left will lead to Cole Hall. Classrooms will be straight back.

Construction *(from page 1)*

he explains. In addition, people no longer will be able to get to Cole Hall via the Medical Sciences stairway. They will need to enter the hall through the basement of the building.

By the time construction begins, Facilities Management will supply four different rerouting maps. They will be published in a future issue of *Newsbreak,* and also will be available at various campus locations, including the lobby of Medical Sciences.

"Go home early"

With virtually any construction project, demolition means substantial noise and a fair amount of disruption. "Jackhammers will be hitting concrete. This is very noisy, so we are limiting this activity to the evening hours," says Purcell. He says that work will begin every weeknight at 4:30 p.m. and will last until 11 p.m. Hours during the weekend (and possibly holidays) will be from 8 a.m. to 11 p.m. as required.

"People who work in Medical Sciences, particularly those in the first five floors of the building, will no doubt start hearing lots of noise beginning at 4:30 p.m. every work day," says Purcell. "My suggestion? Perhaps you should go home early."

People still will be able to use the third floor of Medical Sciences corridor to access the HSW classrooms. The HSE classrooms will be demolished, including Rm. 317. Access to Bear Necessities, also on the third floor, will be kept open. Bear Necessities is the satellite location where departments can buy Materiel Management goods.

The student lockers on the third floor of Medical Sciences and the Health Sciences service corridor will be removed.

Cole Hall Cinema cancelled

Because of the construction during the evening hours, Cole Hall Cinema will be cancelled for two months beginning in July. Classes and lectures will continue to be held in the hall during the weekdays, but you will only be able to enter it through the Medical Sciences basement.

Impact on patient care

There should be very little, if any, impact on patient care areas. The noise should not reach past the fifth floor, according to Purcell, and patient beds begin on the sixth floors of both Moffitt and Long.

Then comes September

From July to September, Saunders Courtyard still will be accessible through the various other campus buildings, including HSW third floor, Clinical Sciences and the School of Nursing building. However, come September when the School of Nursing construction begins, there will be no access to the courtyard.

In order to accommodate concrete trucks, pumps and cranes in the courtyard, there needs to be a fairly large service pit, says Purcell. "We need lots of room in Saunders Court in order to effectively construct the two new lecture halls on the ground level of the School of Nursing building, as well as a new eating facility and in order to re-landscape the courtyard," says Purcell. The re-landscaping of the courtyard will include bringing in new trees and bushes. The present sculptures will be reincorporated into the new design.

Construction in the School of Nursing building also will mean permanently relocating Reprographics Quick Copy service to Millberry Union's I Level. (An update on Millberry's I Level, including the new Sports Center, will appear in a future issue of *Newsbreak*.)

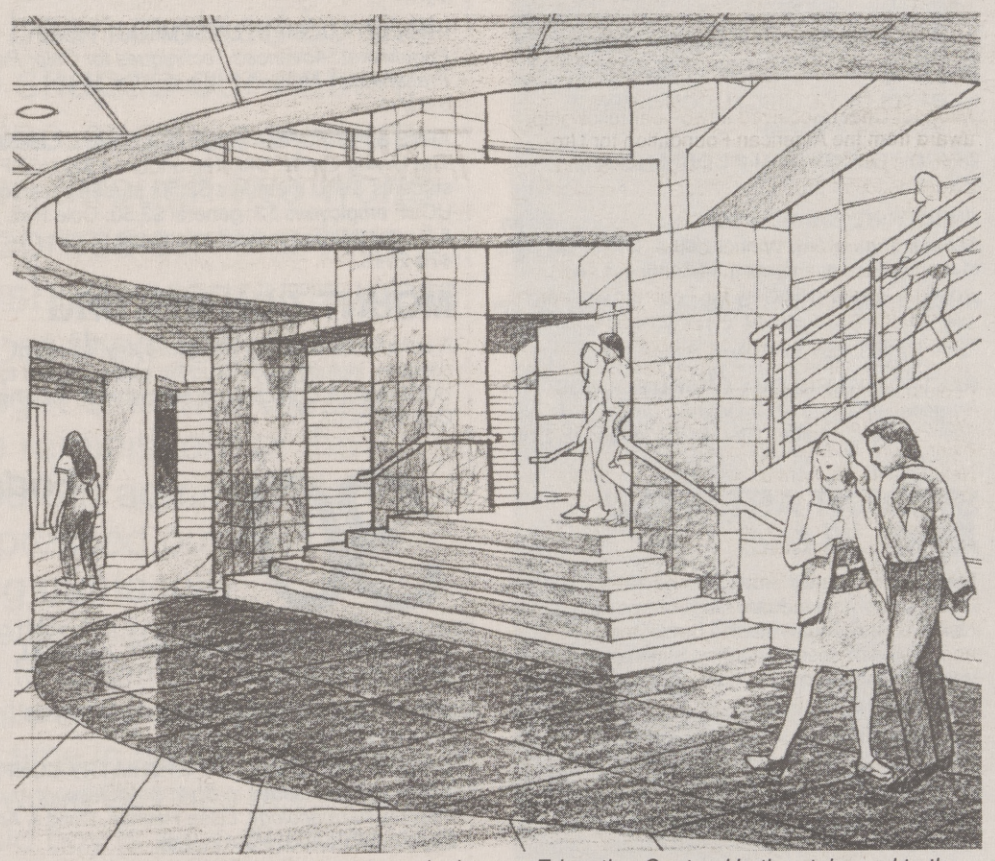
The student locker room in the Nursing building will be relocated to the second floor of the Clinical Sciences building.

The Courtyard Caffe will close and will be moved to the other side of the lobby — where the redwood chips presently are located. The escalator will be replaced by a new stairway. While the Caffe is closed, the campus plans to set up three food carts close to Saunders Courtyard to help serve the needs of hungry people.

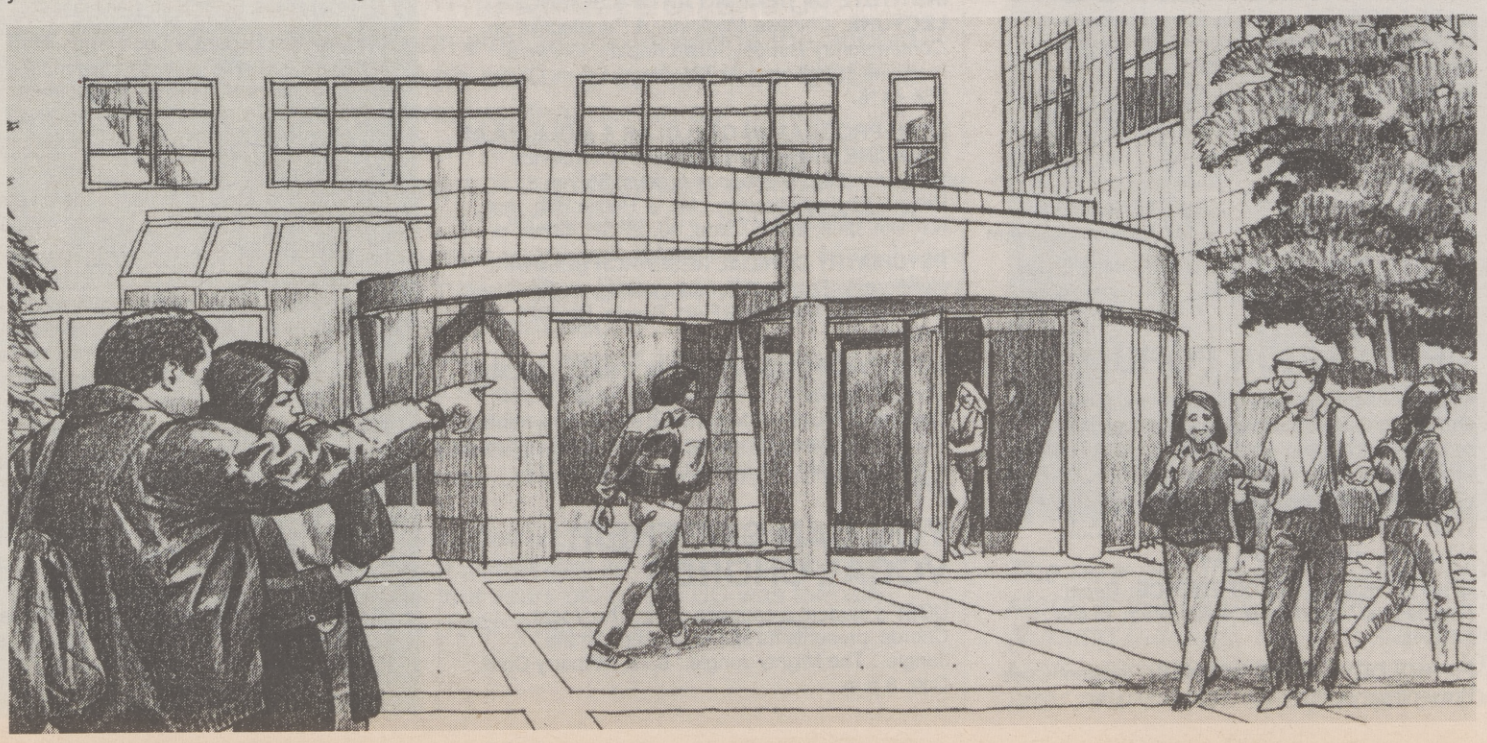
The architectural firm for the entire project is Stone-Marraccini-Patterson, which also is handling the new UCSF/Mount Zion Cancer Center.

"This is a complicated job in a complicated environment," says Purcell. "But, with everyone's cooperation, most of this should go quite smoothly."

Look for more detailed information on the project in future issues of *Newsbreak*.



(Above) A close-up of the main stairway in the new Education Center. Up the stairs and to the right will be the entrance to Saunders Courtyard. Straight back will be the new classrooms. (Below) The new foyer area on the second floor of Medical Sciences (near Student Affairs) leading into Saunders Courtyard.



Faculty Wives to honor Patsy Krevans

In recognition of the Chancellor and Mrs. Krevans retiring, this year's UCSF Faculty Wives and Associates' spring luncheon on Wednesday, May 5, will honor Patsy Krevans.

"We will be asking our members to share special stories or memories about Mrs. Krevans and the experiences shared," says Judy Rosenau, president of the association. "This is a toast. Not a roast.".Rosenau adds that she expects many past presidents of the association to attend as well as Suzanne Peltason, wife of UC President Jack Peltason. Rosenau says that the Faculty Wives hope to see more of Patsy Krevans after July 1 instead of less.

The luncheon will begin at 11 a.m. at the Faculty/Alumni House. The association will again present a check to the campus from their Phantom Fund, which helps benefit UCSF students through both loans and scholarships. Over the past 23 years, the Phantom Fund has raised some $287,000.

The Faculty Wives and Associates have seven luncheon meetings every year, each focusing on a different topic. "We are a low-keyed, closely-knit group," says Rosenau. "I encourage any faculty member who is reading this, to please show it to his or her spouse. As our name implies, we welcome any faculty wife or faculty member, single or married." Tickets for the May 5 luncheon are $20 each. For further information, call Judy Rosenau at 342-9188.

Another toast to the JRKs

The Retirees' Association also will be sponsoring a "Toast to Dr. & Mrs. Krevans" at a luncheon on Friday, May 7, beginning at 11:30 a.m. at the Presidio Officers' Club. Tickets are $15 per person. For further information, call 564-7204 or 731-3109.

UCSF Safety Fair coming up

How do you protect against TB and hepatitis? What do you put into the "red bags?" How do you reduce your chances of becoming a crime victim?

These and many other questions will be answered, if you attend the UCSF Safety Fair. The fair will be held on two different days in three different campus locations to ensure that more employees will have the opportunity to attend.

Representatives from departments which are responsible for your work place safety will have on display several exhibits, and will hand out information on such concerns as personal safety; infection control, including TB, hepatitis, and HIV; and environmental health & safety, including fire, disaster, and chemicals.

Be sure to attend one of the following:

- Wed., May 19, from 3 to 5 a.m., 11 Moffitt South
- Thurs., May 20, from 10 a.m. to 3 p.m., Moffitt Cafeteria
- Thurs., May 20, from 10 p.m. to midnight, Moffitt Rm. 980.

For further information call Christine Yee at 476-5683 or Marilyn Jordan at 476-0640.

Have you ever worked on Wards 86 or 5A?

The AIDS Program and Ward 5A at SFGH are commemorating their 10th anniversary on the evening of Saturday, July 31. The event will honor all volunteers and staff who have worked in either the outpatient clinic — Ward 86 — or in the inpatient unit —Ward 5A. If you have worked in either ward and would like to share an evening of memories and recognition of colleagues and friends, call Steve Keith (Ward 5A) at 864-1081 or Terrell Byrne (Ward 86) at 476-0828.

Hire a teenager for the summer

The 25th year of UCSF's participation in the annual city-wide Summer Youth Employment Program will begin June 28 and last through August 20. The Personnel Department is beginning to coordinate this year's efforts and soon will notify campus supervisors regarding additional details on how to participate. The program is funded by the federal government and administered by the San Francisco Unified School District and the Private Industry Council of San Francisco, Inc. For further information, call UCSF's coordinator of the program, Bob Rojas, at 476-5357.

Today/Tomorrow

24 Saturday

ANESTHESIA GRAND ROUNDS. HSW 301. 8-10 a.m.

IS OVEREATING A PROBLEM FOR YOU?

Feeding the Hungry Soul. Therapist Robin McKnight leads this workshop on the unique relationship women have to food and overeating. Sponsored by Women's Resource Cntr. $45-$60. C 130. 9 a.m.-4 p.m. Call 476-5222 to pre-register.*

SELF-DEFENSE FOR KIDS

Kate Hobbs, certified self-defense instructor, teaches children and adolescents personal safety for home, school and in public, assertion skills and physical self-protection techniques. Sponsored by Rape Prev. Educ. Prog. $35. Marilyn Reed Lucia Child Care Study Cntr. Call 476-5222 to pre-register.*

- Ages 7-10: 10 a.m.-noon.
- Ages 11-14: 1:30-3:30 p.m.

26 Monday

BREAST CANCER SCREENING SCHEDULE

Women can have low-cost mammograms — X-rays to screen for breast cancer — from a mobile van that travels to convenient locations in the Bay Area.

Women need the approval of their physician to have the mammogram, in addition to their doctor's full name, address (including room number & zip) and phone number to assure that results are mailed promptly. The procedure takes approximately 20 minutes & costs $60. To make an appointment call 476-2193 between 9 a.m. & 3 p.m.

Because the service has become so popular and appointments are filled by the time this calendar is published, we list only dates when the van will be at UCSF locations and when appointments are still available:

- Fri., May 7: On Parnassus at Medical Cntr. Way.
- Tues.-Thurs., May 25-27: UCSF/Laurel Heights, 3333 California St.
- Thurs., June 3: UCSF/Daly City, 333 Gellert Blvd.

A mammogram also is available at the Mount Zion radiology department for $50. Call 885-7710.

PAIN SEMINAR FOR NURSES

Perspectives on Pain. Nurses can explore a comprehensive approach to assessing and managing pain in both adult and pediatric patients with clinical nurse specialist Micaela Presti and Pamela Nye, chair, Nursing Pain Task Force. Laurel Heights Conf. Cntr. 8 a.m.-4:30 p.m. Call 476-2993 to pre-register.

OTOLARYNGOLOGY GRAND ROUNDS. S 214. 8-10 a.m.

MELANOMA CONFERENCE. Melanoma Clin. Conf. Rm., 4th fl., MZ Pavilion. Noon.

LABORATORY MEDICINE GRAND ROUNDS: *Domestic Violence.* Daniel C. Barrios, Lab. Med. L 535. 4-5 p.m.

IMMUNOLOGY SEMINAR SERIES. HSW 302. 5 p.m.

PEDIATRIC UROLOGY CONFERENCE: *Diagnosis of Urinary Obstruction.* John Palmer, Uro., UCD. M 464. 5-6 p.m.

27 Tuesday

PLASTIC SURGERY GRAND ROUNDS: *D & C Conference.* Rm. 200 1A-122, VAMC. 7 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call Barbara Jim-George, 476-4750.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Residents' Forum.* C 701. 8 a.m.

NEW EMPLOYEE ORIENTATION: S 214. 8:30-10:30 a.m. Call 476-1073 to schedule.

SFGH PEDIATRIC GRAND ROUNDS. Carr Aud., SFGH. 8:30-9:30 a.m.

OB/GYN GRAND ROUNDS: *Perspectives in the Management of Menopause.* Isaac Schiff, Ob/Gyn, Mass. Gen. Hosp., Boston. S 1364. 9-10 a.m.

PEDIATRIC NEURORADIOLOGY CONFERENCE. HSE 317. 9 a.m.

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

PROFESSIONAL RESEARCH ORGANIZATION FOR STAFF LUNCHTIME SEMINAR: *Technique for Isolation of Messenger RNA.* Video presentation & discussion. Free for PROS members, $2 donation non-members. HSE 1309. Noon-1 p.m. Call Elisabeth Zurlinden at 476-5111.

LANDBERG CENTER CHRISTIAN PRAYER SERVICE: All are invited. N 417. 12:10-12:30 p.m. Call Mary at 564-3515.*

VAMC EEG READING SESSION. Bldg. 203, Rm. 2A49, VAMC. 3 p.m.

MEDICAL ANTHROPOLOGY SEMINAR: *Wages of Sin: The Politics of Tuberculosis in 19th Century France.* David Barnes, Hist. Hlth. Sci. Rm. 218, Laguna Honda Schl. 3:30-5 p.m.

BIOCHEMISTRY & BIOPHYSICS SEMINAR: *The Two-Hybrid System to Detect Protein-Protein Interactions.* Stan Fields, Microbio., SUNY Stonybrook. HSW 301. 4 p.m. Student lunch with speaker at noon in S 980. Sign up in S 962.

SFGH GI MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

28 Wednesday

SPINE CONFERENCE ROUNDS. C 417. 7-8 a.m.

SURGERY GRAND ROUNDS: *Morbidity & Mortality Conference.* Verna C. Gibbs, Surg. & Liver Cntr. Toland Hall. 7-8:30 a.m.

SFGH ORTHOPAEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

HEMATOLOGY CLINICAL CONFERENCE. M 1296. 7:30-8:30 a.m.

DERMATOLOGY STAFF CONFERENCE. HSW 301. 8-9 a.m.

ENDOCRINE GRAND ROUNDS: *Perspectives on Management of Menopause.* Isaac Schiff, Ob/Gyn, Mass. Gen. Hosp., Boston. M 1486. 8:30 a.m.

NUCLEAR MEDICINE SEMINAR: *Prostate Cancer — Current Controversies & Treatment Options.* Peter Carroll, Uro. LPPI Aud. 8:30 a.m.

GASTROENTEROLOGY GRAND ROUNDS: *Prognostic Factors in Colorectal Cancer.* R.A.J. Spence, Surg., Belfast City Hosp., Ireland. S 214. 9-10 a.m.

STUDENT ART SHOW APRIL 28 & 29

Third annual show features two-dimensional art by UCSF students, graduate students, postdocs, interns & residents. Millberry Conf. Cntr. 10 a.m.-6 p.m. Meet the artists at a reception in the Millberry Conf. Cntr. on Thurs., Apr. 29, 4-6 p.m.

BIOPHYSICS 205 SEMINAR: *Studies of Homologous Recombination in Mammalian Cells.* John P. Murname, Lab. Radiobio. & Env. Hlth. LR 213. 10:30 a.m.-noon.

BROWN BAG LECTURE SERIES: *California Indian Country.* Dolan H. Eargle, Pharm. Chem., explores the heritage of California's Native American people. Sponsored by Campus Tours/Speakers Bureau. HSW 300. Noon. Call 476-4394.*

SCHOOL OF NURSING PRIMARY HEALTH CARE LECTURE SERIES: *Ethical Questions & Quandaries in Primary Health Care.* Anne Davis, MHCAN. N 517. Noon-1 p.m.

PSYCHIATRY GRAND ROUNDS: *Attachment Theory & Psychoanalysis.* Alicia F. Lieberman, Psychr. & Infant-Parent Prog., SFGH. LPPI Aud. 1-2 p.m.

HEAD & NECK TUMOR CONFERENCE. Melanoma Clin. Conf. Rm., 4th fl., MZ Pavilion. 1:30 p.m.

TRANSFUSION RESEARCH FORUM: *HIV Tat Mutant in PBMCs.* Allen Mayer, Irwin Mem. Blood Cntrs. L 535. 3-4 p.m.

DEPRESSION FORUM

LPPI sponsors this public educational forum explaining that depression is a medical illness for which effective treatments are available. Rm. 371, LPPI. 4 p.m. Call 476-7394.*

LIVER CENTER SEMINAR: *Oxidant Stress & the Liver.* Barry Halliwell, Biochem., King's Coll., U London. HSW 301. 5-6 p.m.

UROPATHOLOGY CONFERENCE: *Renal Neoplasms.* Theodore R. Miller, Path. M 464. 5-6 p.m.

PATHOLOGY GRAND ROUNDS: Resident Case Presentations. HSW 508. 5:30-6:30 p.m.

29 Thursday

ORTHOPAEDIC SURGERY STAFF CONFERENCE. HSW 303. 7-8 a.m.

MEDICINE GRAND ROUNDS: *Medical Management of Peripheral Vascular Disease.* Mark A. Creager, Med. & Cardio., Harvard & Brigham & Women's Hosp., Boston. Toland Hall. 8-9 a.m.

SFGH NEUROLOGY/NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

PEDIATRIC GRAND ROUNDS: *How to Have Fun in a Rural Pediatric Practice: A Community-Based Model for Improving the Health of Children.* Paul Miles, Twins Falls, Idaho. S 664. 8-9 a.m. Followed by refreshments.

OPHTHALMOLOGY GRAND ROUNDS: *ARVO Presentations.* Oph. Faculty. S 214. 8:30-10 a.m. Preceded by case presentations: *External Disease/ Uveitis.*

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

CLINICAL PATHOLOGY CONFERENCE. S 1364. 10-11 a.m.

FAMILY & COMMUNITY MEDICINE/PRIMARY CARE LECTURE SERIES: *Ambulatory Assessment & Management of Hypertension.* Dorothy Perloff, Med., EKG & Hyperten. Clin, & R. Ron Finley, Clin. Pharm. & Pharm. A 455. 10 a.m-noon.

PEDIATRIC TUMOR CONFERENCE. L 34. 11 a.m.-12:15 p.m.

ONCOLOGY CLINICAL CONFERENCE. M 1296. 4 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

NEUROSCIENCE SEMINAR: *Membrane & Cytoskeletal Dynamics During Growth Cone-Target Interactions.* Paul Forscher, Bio., Yale. HSW 300. 4 p.m.

UROLOGY COMPUTER SEMINAR: *Aldus PageMaker: Advanced Techniques for Color Poster Presentation.* Norbert F. Kaula, Uro. M 464. 5-6 p.m.

ARTS & PERFORMANCES' COLE HALL CINEMA: *The Crying Game.* Children under 14 $2; UCSF students & MU members $2.50; students, seniors & UCSF employees $3; general $3.50. Cole Hall. 5:45 & 8 p.m. (Movies subject to change.) Call 476-2542.*

MOUNT ZION MEETING

A community meeting to discuss any issues of concern, including construction plans, related to the UCSF/Mount Zion campus. Herbst Hall, MZ. 7 p.m. Call 476-3206.*

30 Friday

CRI HEMATOLOGY/ONCOLOGY JOURNAL CLUB. M 1296. 8 a.m.

MOUNT ZION MEDICINE GRAND ROUNDS. Herbst Hall, MZ. 8:30-9:30 a.m.

CHILD & ADOLESCENT PSYCHIATRY CONFERENCE: *Ethical Issues in Child & Adolescent Psychopharmacology.* Lissa Rechtin, Child & Adol. Psychr. LPPI Aud. 9:30-11 a.m.

PHARMACEUTICAL CHEMISTRY 221 SEMINAR: *DNA Bends & Bendability.* Donald M. Crothers, Chem., Yale. S 1364. 11 a.m.

INSTITUTE OF HEALING ARTS & SCIENCES LECTURE: *Chinese Medicine: A Perspective on Contemporary Issues.* Susan Kaplan, Chinese medicine practitioner. N 721. Noon-1 p.m. Call 584-4416.*

SFGH PROGRAM IN CELLULAR & MOLECULAR MEDICINE: *Regulation & Control of Virulence Factors in Staphylococcus Aureus.* Steven J. Projan, Applied Microbio., Inc. & Public Hlth. Inst., NY. Rm 3208, 2nd fl., Bldg. 30, SFGH. Noon.

PSYCHIATRY CLINICAL RESEARCH SEMINAR: *Relationship Factors & Symptomatology in Grief Using a Monologue Task.* Nigel Field, Psychr. Rm. 371, LPPI. 2-3 p.m.

ARTS & PERFORMANCES' COLE HALL CINEMA: *The Crying Game.* Children under 14 $2; UCSF students & MU members $2.50; students, seniors & UCSF employees $3; general $3.50. Cole Hall. 6:30 & 8:45 p.m. (Movies subject to change.) Call 476-2542.*

YOU CAN SEE THEIR VOCAL CHORDS

UCSF's student a cappella choir, The Vocal Chords, presents its spring concert, "In the Jungle…The Mighty Jungle." $3/5. Millberry Conf. Cntr. 8 p.m.

1 Saturday

HALF-PRICE MILLBERRY

Sign up for the remainder of the Spring Session I classes for half the price. Millberry Fitness Desk. Call 476-1115.*

ANESTHESIA GRAND ROUNDS. HSW 301. 8-10 a.m.

ANSWERS TO YOUR MENOPAUSE QUESTIONS

WomenCycles III: A Conference About Menopause. Panel of health professionals discusses topics related to women's health such as hormone replacement therapy, osteoporosis, menopause and sexuality and more. Many opportunities to ask questions & engage in dialogue. Sponsored by Women's Resource Cntr. $5-$25. Cole Hall. 8 a.m.-5 p.m. Call 476-522 to pre-register.*

LOW VISION FORUM: Maeve Metzger focuses on getting around San Francisco, Virginia Cerenio discusses the Paratransit taxi program and Jim WalkingBear brings the group up to date on special bus and transit services. Forums are held on the first Saturday of each month. Main foyer, ACC. 11 a.m.-1 p.m. Call Frances Neer at 626-5313.*

LUCK BE A LADY TONIGHT

The San Francisco Bay Club hosts a "casino night" to benefit the SFGH Trauma Cntr. (See story on page 1 for details.)*

3 Monday

MOTHER'S DAY SALES

Gifts, candy, jewelry & more for Mother's Day (Sun., May 9) on sale on the following dates.

- Mon. & Tues., May 3 & 4: Millberry Conf. Cntr. 8 a.m.-5 p.m.
- Thurs. & Fri., May 6 & 7: Two Bag Ladies jewelry. Med. Sci. lobby. 10 a.m.-3 p.m.

OTOLARYNGOLOGY GRAND ROUNDS. S 214. 8-10 a.m.

VAMC NEURORADIOLOGY ROUNDS. 2A47, VAMC. 9:30 a.m.

MELANOMA CONFERENCE. Melanoma Clin. Conf. Rm., 4th fl., MZ Pavilion. Noon.

ΑΩΑ VISITING PROFESSOR

Albert Jonsen, Ethics & Med. Hist., U Wash., serves as the School of Medicine's Alpha Omega Alpha Visiting Professor and presents the following:

- Mon., May 3: *Futility: When Is Enough, Enough?* Cole Hall. 3:30-4:30 p.m.
- Tues., May 4: *The Social Impact of AIDS: The Epidemiology of a Political Message.* Carr Aud., SFGH. 11:30 a.m.-12:30 p.m.
- Wed., May 5: *Futility: How Far Should We Go to Save a Life?* Toland Hall. 7-8 a.m.

LABORATORY MEDICINE GRAND ROUNDS: *Oral Manifestations of HIV Disease.* Deborah Greenspan, Oral Med. L 535. 4-4:50 p.m.

CINCO DE MAYO EVENTS

UCSF celebrates Cinco de Mayo with the following events:*

- Mon., May 3: *A Mural Study: Cosmic View of the Mayans.* Oscar De Leon, artist. Med. Sci. lobby. 11 a.m.-1:30 p.m. (An historical exhibit will be on display in the Med. Sci. lobby all week.)
- Wed., May 5: *The Public in Public Education.* Waldemar (Bill) Rojas discusses the community & ways to enhance the diversity in our schools. A Brown Bag Lecture sponsored by Campus Tours/Speakers Bureau. HSW 300. Noon-1 p.m. Call 476-4394.

  El Mercado. Raffle, food, crafts & folk dancers. Raffle prizes include tickets to Oakland A's & SF Giants games, gift certificates & more. Saunders Court. Noon-1 p.m. (Raffle tickets on sale in the Med. Sci. lobby, Mon., Apr. 26-Fri., Apr. 30. 11:30 a.m.-1:30 p.m.)
- Thurs., May 6: *Latinas in the Media.* Rosa Del Castillo Guilbault, KGO-TV, discusses whether Latinas have an impact in the media. Sponsored by Women's Resource Cntr. Toland Hall. Noon. Call 476-5836.
- Fri., May 7: *Altazor.* Group performs "canciones neuvas" from Latin America as part of the Plaza Pulse monthly concert series sponsored by Arts & Performances. Plaza Grill. Noon. Call 476-2542.

Founders Day 1993

Thirteen decades ago, Hugh Toland began a small medical college, which today has become one of the most respected health sciences campuses in the world. And you — whether you're a staff employee, a student or a faculty member — are an integral part of it — UCSF.

The campus' history is rich and varied, and in many ways has been molded by the same events that have shaped our nation, the state and the UC nine-campus system. The University has been through two world wars and The Great Depression — a time when salaries were slashed, programs were cut and many people lost their jobs.

The recent state budget cuts and UC's response to these woes are reminiscent of the 1930s, and have frustrated our administrators, angered our students, depressed our staff and caused resentment among our faculty.

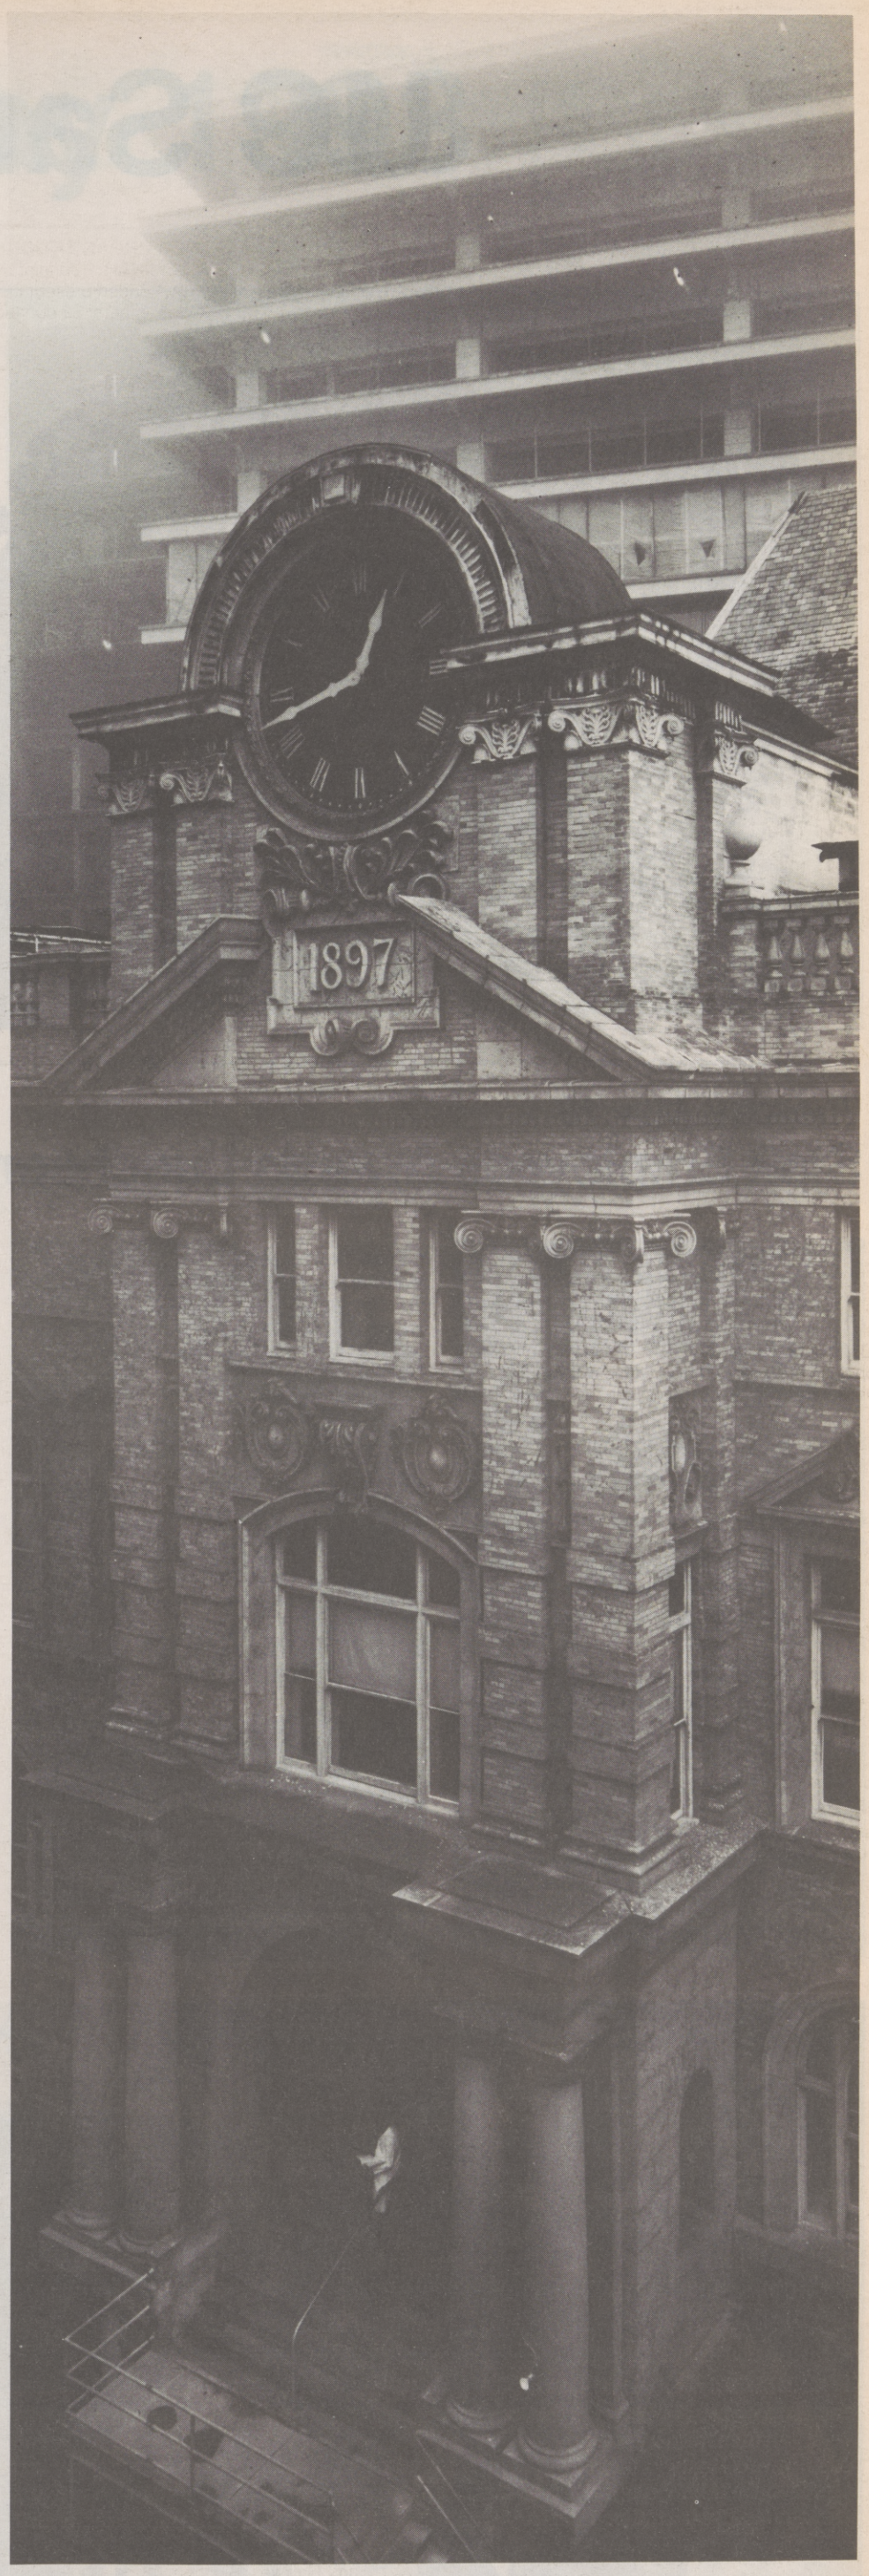
Yes, UCSF has seen better financial times. But, just look at what UCSF continues to accomplish because you come to work or school virtually every day: A little girl now can eat solid food for the first time in her life because she has a new jaw; a man in Redwood City has been cured of tongue cancer; a six-month-old boy is alive because of a liver transplant; thousands of people with HIV are living longer, healthier lives; San Francisco high schools have better science education. The list goes on and on.

It is more important than ever to acknowledge the accomplishments of all the people who make up our campus. UCSF is hosting a series of events to do just that during our annual Founders Day on Tuesday and Wednesday, May 18 and 19.

You're invited to be a part of the festivities, which will include the Faculty Research Lecture, a special scientific symposium, a research forum (held the previous week on Wednesday, May 12), a portrait unveiling, and the Founders Day Banquet. In addition, there will be an invitational staff awards luncheon.

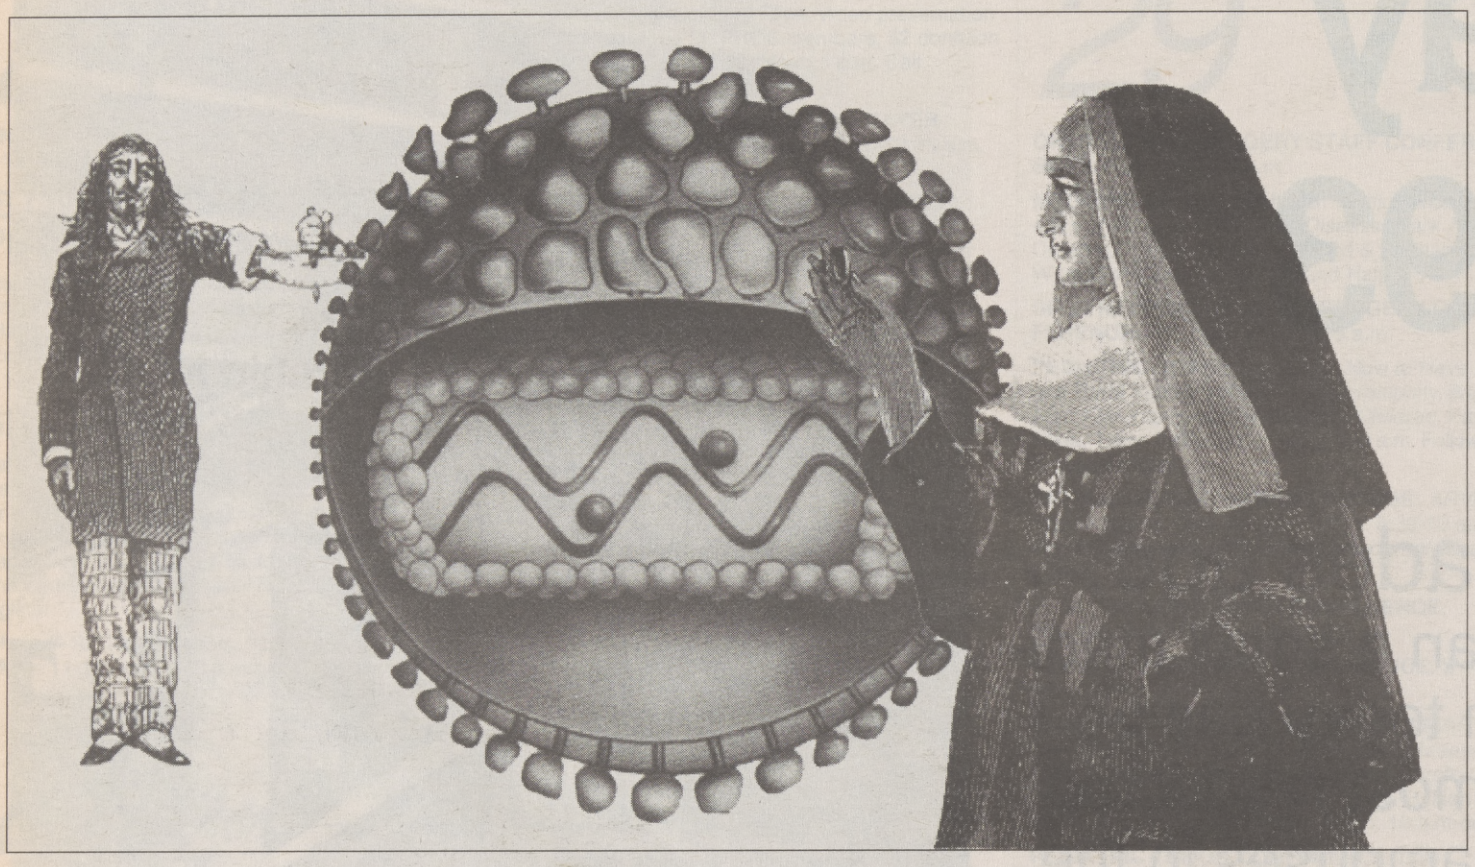
Some of the activities will honor the career of Julius R. Krevans as he retires as Chancellor. As the medical school dean from 1971 to 1982 and as Chancellor from 1982 to 1993, Krevans has guided UCSF's programs to great distinction. To top off the festivities, Krevans will be awarded the most prestigious award given by the campus — the UCSF Medal — at the Founders Day Banquet.

UCSF's Founders Day events also will recognize the University of California's 125th anniversary. (UCSF celebrated its 125th in 1989 because Hugh Toland's medical college was four years old before UC was formally incorporated.) For details on all the UCSF events, just turn the page.



The new and the old: In Saunders Court, nestled in between the Medical Sciences building, Health Sciences West and the School of Nursing building, used to stand the Affiliated Colleges Building. The structure was demolished in 1970. The clock was preserved and later refurbished and placed on the east wall of Millberry Union.

UC San Francisco



Wednesday, May 12

GSA Research Forum

The celebration features a research forum, poster session and reception hosted by the Graduate Students' Association in conjunction with the Graduate Division, the Vice Chancellor for Staff & Human Services, the Nursing Student Council, Sigma Theta Tau, Chiron Corporation and Genentech, Inc. The forum will be held from 10 a.m. to 4 p.m. in the Millberry Union Conference Center. Posters will be on display that day from 10 a.m. to 5 p.m. in the lobby of Health Sciences West, where a reception honoring all participants will begin at 4 p.m. At the reception, four research presenters will be selected at random to receive grand prizes. For further information, call the Graduate Students' Association at 476-2233.

GSA research presentations promise to be diverse and varied ... from breast implants to wound healing of surgical incisions; from carbon 60 treatment for HIV to the stress of women who have hospitalized premature infants; from transdermal delivery of drugs to nuns as research subjects.

Tuesday, May 18

Staff Employees Awards Luncheon

The extraordinary efforts of UCSF staff employees will be showcased at a special noon luncheon on Tuesday, May 18, in the Millberry gym. Outstanding employees, who have made significant contributions to the campus and the San Francisco Bay Area, will be honored. *By invitation.*

Chancellor's Award for Exceptional University Service

Befitting "The Year of the Woman," all five of this year's Exceptional University Service award winners are women. With a total of more than 70 years of University Service between them, the winners of this prestigious award are:

• Margaret Ambeau, administrative assistant III, Facilities Management. A member of the campus community for 18 years, Margaret is the Laurel Heights Conference Center coordinator who has been described as a "one person operation."

• Carol Brito, assistant II, Medical Center Utilization Review. With more than 9 years of University service, Carol coordinates and processes Medi-Cal accounts and as such helps maintains the "financial health" of the Medical Center.

• Ellen Curran, administrative assistant III, Materiel Management. Chief administrator of the Parnassus campus capital equipment inventory, she has been with UCSF for over 14 years.

• Elizabeth Ellison, administrative assistant III, Medical Outpatient Department, SFGH. With 14 years of University service, Elizabeth manages her department's administrative, academic, personnel and financial affairs.

• Maureen Guinea, billing assistant II, UCSF Medical Group Business Services. Maureen has the difficult task of processing physicians' bills. She has been with UC for 17 years.

Chancellor's Award for Public Service

• First-year School of Pharmacy student Marcia Smith will receive the award for her exceptional service as a volunteer to many community organizations, including San Francisco Women Against Rape, San Mateo High School and the San Francisco Visiting Nurses and Hospice Program. She also will receive the Thomas N. Burbridge Award.

• Charles Gooding, professor, radiology and pediatrics, and executive vice chair, radiology, will be honored for his work as the founder, president and chair of the board of the Radiology Outreach Foundation, a nonprofit organization organized in 1988 to improve health care of people in disadvantaged countries by providing medical textbooks, supplies and radiology equipment.

• Substance abuse specialist Bill Lee in the Department of Psychology at SFGH will be recognized for his openness and genuine concern far beyond what his job requires, including his work with Marin City youths in teaching AIDS and drug prevention.

Distinguished Nurse Award

Karen Scobie, clinical nurse III, Intensive Care Nursery, will be honored for her leadership of the ICN Quality Improvement Committee and her work setting up a discharge planning system.

Other nominees to be recognized include: Mitchel Erickson, clinical nurse III, 11 Moffitt; George Gomez, administrative nurse I-supervisor, Surgery Center; Janet Lyum, clinical nurse III, 9 Intensive Care Unit; Beverly Rose D. Nazareno, clinical nurse II, Blood Donor Center; and Deidre Wipke-Tevis, clinical nurse II, 7 Long.

Jeanne M. Yalon Memorial Award

Deborah MacDonald, clinical nurse II on 11 Long, will be recognized as an excellent bedside clinician who has been able to work with the sickest patients and care for them in an effective manner.

Helen B. Ripple Award in Neuroscience

Clinical nurse II Siobhan Geary in the Neurology/Neurosurgery Intensive Care Unit, also will be honored for being an excellent clinician, who demonstrates and shares her knowledge and skills with her peers and physicians. She received her Master's in Nursing from UCSF last June.

UCSF/Mount Zion Milton & Helen Pearl Award

Joan Howell, administrative assistant I in Cardiology/Nuclear Medicine, with nearly 30 years of Mount Zion service, will be honored for consistently and efficiently managing the work of two separate and busy departments.

Chancellor's Award for Exceptional University Service winners: (Left to right) Carol Brito, Margaret Ambeau, Elizabeth Ellison, Maureen Guinea, Ellen Curran.

Founders Day 1993

Tuesday, May 18

Faculty Research Lecture

The UCSF Academic Senate honors Carroll L. Estes, professor of sociology, Department of Social & Behavioral Sciences and Director of the Institute for Health & Aging in the School of Nursing, as the 36th Faculty Research Lecturer. Estes' noted research has broadened the field of sociology to include the elderly, and has influenced legislation targeted to the needs of this population in the US. Estes' lecture, to be held at 2 p.m. in Cole Hall, is entitled, "The Paradox of Policy: Aging Research and the Adventures of an Academic on the Policy Frontier." The lectureship represents the foremost recognition for scientific achievement bestowed on a distinguished member of the faculty at UCSF.

A Special Tribute

To honor Julius R. Krevans upon his retirement as Chancellor of UCSF, alumni, faculty, friends and business supporters of the University have joined to establish the

Julius R. Krevans, MD Distinguished Professorship in Internal Medicine

This distinguished professorship will fund the research and work of an outstanding member of the School of Medicine faculty. All members of the UCSF family are invited to join in this tribute, and gifts of all amounts are welcome. If you would like more information, contact Brad Wong, director of UCSF Annual Giving, at 476-2276.

(Clockwise from far right) Helen B. Ripple Award winner Siobhan Geary; Distinguished Nurse Award winner Karen Scobie (center) surrounded by nominees (left to right) Janet Lyum, Mitchel Erickson, Beverly Rose Nazareno, George Gomez (missing—Deidre Wipke-Tevis); Milton & Helen Pearl Award winner Joan Howell; Chancellor's Award for Public Service winners (left to right) Bill Lee, Marcia Smith, Charles Gooding; Jeanne M. Yalon Memorial Award winner Deborah MacDonald.

Wednesday, May 19

"A GENERATION OF SCIENCE & INNOVATION"

Symposium in Honor of Chancellor Julius R. Krevans on his Retirement

9 a.m. - 12:15 p.m., Cole Hall

First Session 9-10:15 a.m.

Moderator: **Robert B. Jaffe**
Fred Gellert Chair of Reproductive Medicine & Biology
Chair, Ob/Gyn & Reproductive Sciences
Director, Reproductive Endocrinology Center

Merle A. Sande
Professor & Vice Chair, Medicine
Chief, Medical Service, SFGH
"The AIDS Epidemic: UCSF's Response"

Sandra J. Weiss
Professor, Mental Health, Community & Administrative Nursing
Director, Center for Family Health Studies
"Neurobehavioral Response to Touch: Implications for Health"

Robert Brook
Professor, Medicine & Health Services, UCLA
Director, UCLA Robert Wood Johnson Clinical Scholars Program
"Maintaining Quality in a Cost-Conscious Era"

Caroline H. Damsky
Professor, Stomatology & Anatomy
"Adhesion Molecules Hold It All Together: Implications for Disease"

Second Session 10:45 a.m. - 12:15 p.m.

Moderator: **William J. Rutter**
Hertzstein Professor of Biochemistry

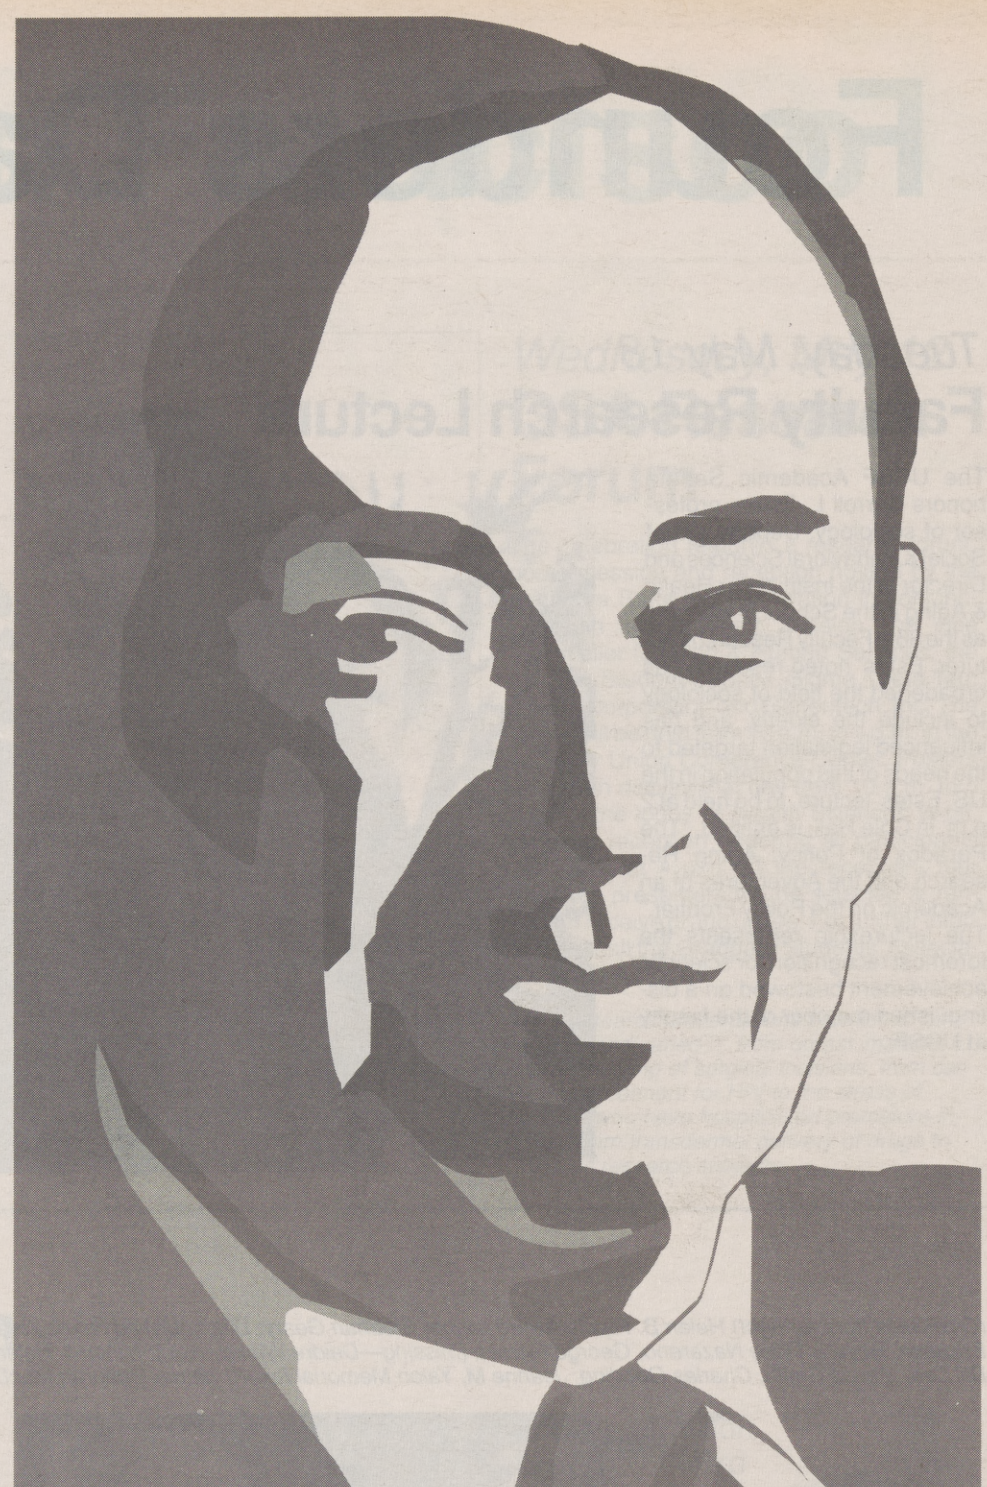
J. Michael Bishop
Nobel laureate
Professor, Microbiology & Immunology Biochemistry & Biophysics
Director, G.W. Hooper Research Foundation
"Cancer Genes"

Harold E. Varmus
Nobel laureate
American Cancer Society Professor of Molecular Virology
Professor, Microbiology & Immunology Biochemistry & Biophysics
"Cancer Genes"

Y.W. Kan
Louis K. Diamond Professor, Hematology,
Investigator, Howard Hughes Medical Institute
"The Control of Genetic Diseases"

Irwin D. Kuntz, Jr.
Professor & Acting Chair, Pharmaceutical Chemistry
"Prospects for Structure-Based Drug Design"

Julius R. Krevans
Chancellor
Response



Wednesday, May 19

Portrait Unveiling

The campus community and friends are invited to celebrate the contributions of outgoing Chancellor Julius R. Krevans with a special unveiling of a portrait of Krevans on the main floor of the UCSF Library at 2 p.m. The portrait, painted by artist Herbert E. Abrams, will hang in the Library, which was constructed under Krevans' tenure and with his guidance. In Krevans' honor, the Library has on display on the main floor through June a display highlighting his career.

Wednesday, May 19

Founders Day Banquet

The celebration continues on the evening of Wednesday, May 19, with the UCSF Founders Day Banquet. This black tie affair will be held at the Westin St. Francis Hotel in San Francisco. The night will begin with a reception at 7 p.m. and will continue with dinner at 7:45 p.m.

The banquet, which is open to everyone, will be highlighted by the awarding of the UCSF Medal to Chancellor Julius R. Krevans. The Medal is the University's most prestigious honor, given to individuals who have made outstanding contributions to the health sciences, and whose efforts mirror the goals and values of the campus.

The dinner also will acknowledge Faculty Research Lecturer Carroll L. Estes', professor of sociology. The Lectureship is the highest recognition of scientific achievement bestowed on a UCSF faculty member.

Advanced ticket purchase is required ($50 per person) for this gala celebration. See below reservation form.

Banquet Reservation Form

For reservations to the Founders Day Banquet at the Westin St. Francis Hotel, please mail this form or a copy of it by Thursday, May 6. Reservations and payment for the event must be made in advance. Please return the form with your check to Founders Day, Office of the Chancellor, UCSF, San Francisco, CA, 94143-0402, Attention: Jon Pierucci.

IMMUNOLOGY SEMINAR SERIES. HSW 302. 5 p.m.

UROPHYSIOLOGY CONFERENCE: *Physiology of Acupuncture.* Marshall Stoller, Uro. & Urinary Stone Cntr. M 464. 5-6 p.m.

4 Tuesday

"FOR NURSES ONLY"

UCSF observes National Nurses Week with the following events just for nurses. Call Kay Kelly at 476-6661 for more information. (See story on page 8 for more information.)

- Tues., May 4: Product fair with refreshments provided by vendors. Hellman Conf. Rm., MZ. 7–9 a.m., 10:30 a.m.–2 p.m. & 4:30–7 p.m.

  ACC Awards Reception: Ceremony to honor top nurses. A 326. Noon-2 p.m.
- Wed., May 5: *Caring for the Patient with Pulmonary Disease.* Nursing Grand Rounds. Toland Hall. 9 a.m.–4 p.m.

  Parnassus Awards Reception: Ceremony to honor top nurses, plus a slide presentation about nurses at work. Millberry Conf. Cntr. 4:30–6:30 p.m.
- Thurs., May 6: Nursing Staff Breakfast. Moffitt Cafeteria. 7–10 a.m.

  Mount Zion Awards Reception: Ceremony to honor top nurses, plus a slide presentation about nurses at work. Hellman Conf. Rm., MZ. 2–4 p.m.

PLASTIC SURGERY GRAND ROUNDS: *Problem Cases.* Davies Med. Cntr. 7 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call Barbara Jim-George, 476-4750.

COMBINED ORTHODONTIC/ORTHOGNATHIC SURGERY GRAND ROUNDS: *Psychological Aspects of Orthognathic Surgery.* Clinical psychologist April Holman & orthodontist Ken Holman. C 701. 7:30 a.m.

SFGH PEDIATRIC GRAND ROUNDS. Carr Aud., SFGH. 8:30-9:30 a.m.

OB/GYN GRAND ROUNDS: *Should Women with Familial Ovarian Cancer Undergo Prophylactic Oophorectomy?* Karla Kerlikowske, Epid. & Biostat. S 1364. 9-10 a.m.

PEDIATRIC NEURORADIOLOGY CONFERENCE. HSE 317. 9 a.m.

SFGH MEDICINE GRAND ROUNDS: (See Alpha Omega Alpha Visiting Professor on Mon., May 3.)

CAMPUS AMNESTY INTERNATIONAL MEETING: Meets the first Tuesday of each month. MU 111. Noon-1 p.m.

VAMC EEG READING SESSION. Bldg. 203, Rm. 2A49, VAMC. 3 p.m.

BIOCHEMISTRY & BIOPHYSICS SEMINAR: *Polarized Cell Division in Yeast: The Tyranny of the Petri Plate.* Gerald Fink, Whitehead Inst. Biomed. Res., MIT. HSW 301. 4 p.m. Student lunch with speaker at noon in S 980. Sign up in S 962.

SFGH GI MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

NEUROLOGY RESEARCH SEMINAR: *The Immune Response to Myelin Basic Protein.* Stephen Hauser, Neuro. S 664. 5-6 p.m.

5 Wednesday

SPINE CONFERENCE ROUNDS. C 417. 7-8 a.m.

SURGERY GRAND ROUNDS: (See Alpha Omega Alpha Visting Professor on Mon., May 3.)

SFGH ORTHOPAEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

HEMATOLOGY CLINICAL CONFERENCE. M 1296. 7:30-8:30 a.m.

DERMATOLOGY STAFF CONFERENCE: *The Many Faces of Melanoma: A Photo Guide to Diagnosis.* Ernest Epstein, Derm. HSW 301. 8-9 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Prospective Cohort Reproductive Study of Semi-Conductor Workers.* Brenda Eskenazi, Publ. Hlth., UCB. A 455. 8-9 a.m.

ENDOCRINE GRAND ROUNDS: *The Importance of Peak Bone Mass & Its Determinants.* C. Conrad Johnston, Jr., Med., Indiana U. Part of the department's "Nutrition & Mineral Metabolism: Calcium & Vitamin D" series. M 1486. 8:30 a.m.

NUCLEAR MEDICINE SEMINAR: *PET in Oncology.* David Lilien, Newport Diagnostic Cntr., Newport Beach, CA. LPPI Aud. 8:30 a.m.

GASTROENTEROLOGY GRAND ROUNDS. S 214. 9-10 a.m.

BIOPHYSICS 205 SEMINAR: *Studies of Nonhomologous Recombination in Mammalian Cells.* John P. Murname, Lab. Radiobio. & Env. Hlth. LR 213. 10:30 a.m.-noon.

FACULTY WIVES & ASSOCIATES' SPRING LUNCHEON: A special luncheon to honor Patsy Krevans on her retirement. $20. Fac. Alum. House. 11 a.m. Call Judy Rosenau at 342-9188. (See story on page 3 for details.)

BROWN BAG LECTURE SERIES: (See Cinco de Mayo events.)

PSYCHIATRY GRAND ROUNDS: *Tinnitus — True Symptom or a Hallucination?* Robert W. Sweetow, Oto. & Aud & Speech Clin. LPPI Aud. 1-2 p.m.

HEAD & NECK TUMOR CONFERENCE. Melanoma Clin. Conf. Rm., 4th fl., MZ Pavilion. 1:30 p.m.

TRANSFUSION RESEARCH FORUM: *Molecular Genetics: Genetics Is Not the Disease.* Richard Strohman, Mol. & Cell. Bio., UCB. L 535. 3-4 p.m.

NEUROSCIENCE THESIS DEFENSE: *The Role of Mechanosensitive Channels During Myogenesis & in Muscular Dystrophy.* Alfredo Franco-Obregon, Neurosci. HSW 300. 4 p.m.

SEMINARS IN BIOLOGY SERIES. HSW 300. 4 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

PEDIATRIC UROLOGY CONFERENCE: *Vesicouretral Reflux.* Robert Mevorach, Uro. M 464. 5-6 p.m.

PATHOLOGY GRAND ROUNDS: *Hyaluronic Acid Research — Update.* Robert Stern, Path. HSW 508. 5:30-6:30 p.m.

OUT AT UC

All are invited to discuss the domestic partner benefits strategy. N 527. 6 p.m. Call Cheryl Christensen at 333-9204 or Tony Travers at 255-1332.*

COMMUNITY HEALTH TALK: *Building Pint-Sized Confidence.* Katherine Fraser, Psychr. & Sally A. Sehring, Ped., present the last in a three-part series on "Your Growing Child." Co-sponsored by Child & Elder Care Referral Serv., Marilyn Reed Lucia Child Care & Study Cntr., Great Expectations Prog. for Parents & Women's Resource Cntr. Toland Hall. 7-9 p.m. Call 476-6667.*

6 Thursday

ORTHOPAEDIC SURGERY STAFF CONFERENCE. HSW 303. 7-8 a.m.

MEDICINE GRAND ROUNDS: *Sarcoidosis: The Internists' Disease.* Asha N. Chesnutt, Med. & Med. Serv. Toland Hall. 8-9 a.m.

PEDIATRIC GRAND ROUNDS: *A Skeptical View of Universal Childhood Lead Screening.* Edgar J. Schoen, Perinatal Screening, Kaiser-Permanente. S 664. 8-9 a.m.

SFGH NEUROLOGY/NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

FAMILY & COMMUNITY MEDICINE/PRIMARY CARE LECTURE SERIES: *Targeting Good Nutrition.* Susan Carter, Nutr. & Diet. *Medi-Cal/Medicare: National Health Insurance.* Joseph Barbaccia, FCM & Mem. Clin. & Alzheimer's Clin. A 455. 10 a.m-noon.

NEUROLOGY/NEURORADIOLOGY CONFERENCE. HSE 317. 10-11 a.m.

PEDIATRIC TUMOR CONFERENCE. L 34. 11 a.m.-12:15 p.m.

INMAN/ABBOTT LECTURES

James R. Urbaniak, Orthopaed. Surg., Duke U, presents the Verne T. Inman Lectureship and LeRoy C. Abbott Orthopaedic Society Lecture. Sponsored by the Dept. Orthopaed. Surg. Call 476-1167.*

- Thurs., May 6: *Treatment of Avascular Necrosis of the Femoral Head by Free Vascularized Bone Grafting: Experience in More than 450 Hips.* Fourteenth Annual Inman Lecture. Cole Hall. 11:30 a.m.
- Fri., May 7: *Frontiers in Hand Surgery.* Thirty-Eighth Annual Abbott Professorship. Cole Hall. 11 a.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

NEURORADIOLOGY GRAND ROUNDS. HSW 303. 4-5 p.m.

NEUROSCIENCE SEMINAR: *Integrin & Non-Integrin Laminin Receptor in Neural Cells.* Salvatore T. Carbonetto, Neurosci. Res. Cntr., Montreal Gen. Hosp. HSW 300. 4 p.m.

ONCOLOGY CLINICAL CONFERENCE. M 1296. 4 p.m.

ONGOING SUPPORT GROUPS

MONDAY

FRIENDS OF LOIS AL-ANON MEETING: Closed meeting: for friends & families of alcoholics only. 3rd fl. Conf. Rm., MCB. Noon.*

UCSF AIDS HEALTH PROJECT MEDITATION & SELF-HYPNOSIS WORKSHOP: Weekly discussion group for anyone dealing with HIV or AIDS in themselves or others. Gazebo Rm., Davies Med. Cntr. 7-9 p.m. Call 476-6445.*

ALZHEIMER'S SUPPORT GROUP: For caregivers, family & friends of people with Alzheimer's or other dementing illnesses. First Monday of each month. Ground Fl. Conf. Rm., Alzheimer's Clin., 1350 7th Ave. 7-9 p.m. Call (800) 942-1333.*

TUESDAY

MULTIPLE HELPERS OUTREACH NETWORK SUPPORT GROUP: For victims & survivors of violent trauma. Ages 15 & over. A 222, LPPI. 10 a.m.-noon. Help-line at 759-7923 provided daily, 7 a.m.-10 p.m.*

OVEREATERS ANONYMOUS MEETING: Regular OA discussion meeting. N 717B. Noon.*

LUPUS SUPPORT GROUP: Second Tues. of the month. C 27, MZ. 7-9 p.m. Call 885-1720.*

WEDNESDAY

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. Observers welcome. C 517. Noon-1 p.m.*

LATIN WOMEN COALITION: For Latina faculty, staff & students. Noon-1 p.m. Call Betty Jerez at 476-7117 for meeting places & dates.

ALCOHOLICS ANONYMOUS MEETING: Closed meeting: alcoholics only. Conf. Rm. B, 3rd fl., MCB. 12:05 p.m.*

MULTIPLE HELPERS OUTREACH NETWORK SUPPORT GROUP: For victims & survivors of violent trauma. Ages 15 & over. Two locations & times: A 222, LPPI, 1-3 p.m., and N 517, 7-10 p.m. Help-line also provided daily, 7 a.m.-10 p.m. at 759-7923.*

SUPPORT GROUP FOR WOMEN LIVING WITH LIFE-ALTERING ILLNESS: 6-8 p.m. Call 775-2854 to pre-register & for meeting location.

"AT THE HEART OF IT" CARDIAC SUPPORT GROUP: For heart patients experiencing fear, anxiety, confusion & stress. A six-week series. Call Kathleen Congdon at 885-7227.

SUPPORT GROUP FOR FAMILY/FRIENDS OF THOSE WITH MENTAL ILLNESS: Open to anyone interested in learning more about psychiatric disorders & their treaments. Call Laura Deering-Mayclin at 476-7394 for more information.

THURSDAY

ALCOHOLICS ANONYMOUS MEETING: Closed meeting: alcoholics only. LPPI A222. 6 p.m.*

FRIDAY

CIRCLE OF SISTERS: Networking forum for black women working & studying at UCSF. L 535. Most Fridays. Call 476-5836.

ALCOHOLICS ANONYMOUS MEETING: Closed meeting: alcoholics only. C 417. 12:10-1 p.m.*

LAKESIDE SENIOR MEDICAL CENTER CAREGIVER SUPPORT GROUP: Meets on alternate Fridays. $10 per meeting. 2501 Ocean Ave. at Junipero Serra. 2-4 p.m. Call 586-8600.

VARIABLE

JEWISH WOMEN'S DIALOGUE GROUPS: Call 546-6988 for meeting dates & locations.

PRIMARY CARE GRAND ROUNDS: *Take Your Aspirin & Call Me in the Morning.* Marc Mora, Prim. Care. A 455. 4:30 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 303. 5-6:30 p.m.

RADIOLOGY GRAND ROUNDS: Presentations by fellows & residents. HSW 301. 5:15-6:15 p.m.

ARTS & PERFORMANCES' COLE HALL CINEMA: *Unforgiven.* Children under 14 $2; UCSF students & MU members $2.50; students, seniors & UCSF employees $3; general $3.50. Cole Hall. 5:45 & 8:30 p.m. (Movies subject to change.) Call 476-2542.*

7 Friday

CRI HEMATOLOGY/ONCOLOGY JOURNAL CLUB. M 1296. 8 a.m.

MOUNT ZION MEDICINE GRAND ROUNDS. Herbst Hall, MZ. 8:30-9:30 a.m.

CHILD & ADOLESCENT PSYCHIATRY CONFERENCE. LPPI Aud. 9:30-11 a.m.

PHARMACEUTICAL CHEMISTRY 221 SEMINAR: *Expression of a Mammalian Sodium/Nucleoside Transporter in Xenopus Laevis Oocytes.* Kathy Giacomini, Pharm. & Pharm. Chem. S 1364. 11 a.m.

RETIREES' ASSOCIATION LUNCHEON: In honor of Chancellor & Mrs. Julius Krevans. $15. Presidio Officer's Club. 11:30 a.m. Call 564-7204 or 731-3109 for information. (See Faculty Wives story on page 3.)

YOUR MONEY MATTERS

A series of four seminars on Fridays covering various financial topics. Facilitated by financial planners from For Your Financial Information. Sponsored by the Women's Resource Cntr. $32 for entire series (if pre-registered by Fri., Apr. 30) or $10 per session. Toland Hall. 11:45 a.m.-1 p.m. Call 550-6111 to pre-register.*

- May 7: *Reconciling Your Bank Account with Your Emotional Account.*
- May 14: *Socially Responsible Investing: An Ethical Alternative.*
- May 21: *Managing Your Debt.* Learn how to get out of the red and into the black.
- May 28: *Making That House Your Home.* Making sense of the various loan programs.

INSTITUTE OF HEALING ARTS & SCIENCES LECTURE: *Channeling: A Bridge to Transcendence.* Polly St. John-Hughes, author, metaphysical teacher. N 721. Noon-1 p.m. Call 584-4416.*

SFGH PROGRAM IN CELLULAR & MOLECULAR MEDICINE: *Human Cytomegalovirus Glycoprotein B: Its Function in Virion Entry & Cell Fusion.* Lenore P. Pereira, Stom. Rm 3208, 2nd fl., Bldg. 30, SFGH. Noon.

PSYCHIATRY CLINICAL RESEARCH SEMINAR: *Attachment & Relationship to Loss.* Mary Main, Psychr. LPPI 371. 2-3 p.m.

ARTS & PERFORMANCES' COLE HALL CINEMA: *Unforgiven.* Children under 14 $2; UCSF students & MU members $2.50; students, seniors & UCSF employees $3; general $3.50. Cole Hall. 6:30 & 9:15 p.m. (Movies subject to change.) Call 476-2542.*

RHYTHM & BLUES FOR BOLIVIA

Come to this benefit dance to help supply our medical students with health education supplies for a teaching trip to Bolivia this summer. Co-sponsored by the Cordilliera Proj. & Outdoors Unlimited. $5-$10. Millberry Conf. Cntr. 8 p.m. Call 476-2078.*

DEVELOPMENT & TRAINING

For further information call 476-4032.

Vendor Payments. Tues., May 11. 8:30 a.m.-noon. $40.

Payroll Workshop. Wed., May 12. 12:30-4:30 p.m. $40.

The UCSF Budget Process. Thurs., May 13. 9 a.m.-4:30 p.m. $40.

Materiel Management Workshop — Module II. Fri., May 14. 8:30 a.m.-12:30 p.m. $50.

Contracts & Grants Workshop. Tues., May 18. 9 a.m.-noon. $40.

Supervising in the Workplace: Administering Consistent & Appropriate Discipline. Thurs., May 20. 8:30 a.m.-noon. $40.

Customer Service Strategies. Thurs., May 27. 8:30 a.m.-4:30 p.m. $75.

Pre-Supervisory Training. Tues. & Wed., June 1, 2, 8, 9. 9 a.m.-noon. $90.

Writing Winning Reports & Proposals. Wed., June 2, 9, 16. 1-4 p.m. $75.

Valuing Diversity. Thurs., June 3. 8:30 a.m.-4:30 p.m. $40.

Stress Management: Dealing with Non-Stop Change. Fri., June 4, 8:30 a.m.-noon & Thurs., June 10, 1-4:30 p.m. $50.

Sexual Harassment: Issues & Answers. Thurs., June 10. 8:30 a.m-noon. $40.

THE NEXT DEADLINE

Tues., Apr. 27, 1993 is the deadline for items to be listed in the next calendar, which covers **May 8-21, 1993 (two weeks).** They must be received in our office in writing by 11 a.m. on that Tuesday. Mail your copy to Michele Firpo at Box 0462, call 476-1541, send a fax to 665-8668, or bring it to S 20.

*Open to the public.

20th & Harrison vetoed for UCSF's waste

The campus will no longer consider using a leased building at 20th and Harrison as a possible site for storage of low-level radioactive and other medical waste. Although no proposal had been made to place a waste storage program in the building, the site was being evaluated as part of a preliminary staff effort to develop alternatives to the waste storage problem.

In response to a crisis facing hospitals and research centers across the country, UCSF has begun a program of storing much of its low-level radioactive waste on site in safe containers and disposing of it with the regular trash after it has decayed and is no longer radioactive. This currently is taking place on a limited scale at the Environmental Health & Safety facility on Parnassus. Up to 70 percent of UCSF's low-level radioactive waste becomes non-radioactive after about 150 days and could be handled in the same manner. An on-site storage program would help solve the waste disposal problem and could cut costs significantly, but severe space limitations at UCSF have prevented expansion of the program.

UCSF must expand the program as a result of federal restrictions that went into effect on January 1 which effectively closed the doors to all existing radioactive waste disposal sites to California hospitals and research centers. In order to continue providing medical treatments and conducting research, UCSF and other medical centers now must process and store most of their own low-level radioactive wastes, though this was not the intent of the law.

Supervisors support UCSF's expansion

The San Francisco Board of Supervisors has passed a resolution to show support for UCSF's efforts to expand within the City, and to urge the Mayor's continued cooperation with those efforts. The resolution is authored by Carole Migden. Co-authors are Terrence Hallinan, Jr. and Angela Alioto.

WHEREAS, the University of California San Francisco (UCSF) is recognized as one of the world's highest quality medical education and research organizations;

WHEREAS, UCSF is conducting research of critical importance to resolving the most pressing medical needs of San Franciscans, including AIDS and cancer;

WHEREAS, UCSF is a major supplier of medical care for San Franciscans, including those least able to afford that care, both at its Parnassus campus and through its affiliation with San Francisco General Hospital;

WHEREAS, In 1976, UCSF halted growth at its Parnassus campus in response to concerns that the surrounding neighborhood could not support additional development;

WHEREAS, UCSF has identified the long-term need to expand its capacity to conduct medical research and this goal requires it to secure additional laboratory and office space;

WHEREAS, UCSF also has identified the need to place its researchers now scattered in different facilities in closer physical proximity to one another to enhance their efforts;

WHEREAS, Meeting its needs requires that UCSF secure three to five million square feet of space in the next 10 years;

WHEREAS, UCSF has identified several sites within San Francisco that might provide suitable space for construction or rehabilitation of research and office space;

WHEREAS, The Board of Supervisors seeks to encourage efforts to increase employment opportunities for the people of San Francisco;

WHEREAS, UCSF, now an employer of 14,000 people, can through its planned expansion protect existing jobs for San Franciscans and create 5,000 new jobs for the people of our City; Now, therefore, be it

RESOLVED, That the Board of Supervisors supports the efforts of the University of California San Francisco to expand within San Francisco;

FURTHER RESOLVED, That the Board of Supervisors encourages this expansion to be accomplished while also preserving the integrity and quality of life in the City's neighborhoods;

FURTHER RESOLVED, That the Board of Supervisors urges the Mayor to continue to do everything within his power to assist UCSF in its efforts to expand in San Francisco, and to provide the Board with regular updates on the status of these efforts. Also to express the Board's intent to continue to cooperate and participate in these efforts.

Fun Zone

A few scenes from last Friday night's Black & White gala (clockwise from bottom left): fun, more fun and Chancellor & Mrs. Krevans doing the "coronation dance."

CAG space recommendations by November

The Community Advisory Group (CAG) wants to submit its recommendations on potential UCSF expansion sites by November. The community representatives called the timetable ambitious but agreed at their last meeting to try to develop a recommendation as quickly as possible in response to the faculty's appeal for faster action. CAG members plan to meet with faculty representatives in an attempt to agree on a timetable.

Long Range Development Plan recommendations will be submitted to the Faculty Committee for the 21st Century, the chancellor, and ultimately the Board of Regents.

Recommendations on expansion sites will be made by the CAG, the Faculty Committee for the 21st Century and the University Advisory Group, composed of UCSF staff employees, but the CAG is the first to propose a timetable for issuing recommendations in an effort to have them considered by the faculty.

The recommendations will be considered in developing plan alternatives to be evaluated in the Environmental Impact Report.

At a previous meeting, CAG members heard faculty members from the schools of Nursing and Pharmacy and the VAMC explain their space problems and needs. At their most recent meeting, they heard from a representative from the School of Medicine, which accounts for about 30 percent of UCSF's space needs.

Zach Hall, professor and chair of physiology, told the CAG members that the long range plan must not merely provide additional space but must also maintain the intellectual exchange and excitement that makes UCSF unique.

Hall came to UCSF from Harvard in 1976, choosing a position at UCSF over another offer from Stanford. The bustle of the hallways and streets, diversity of faculty and students, and egalitarian atmosphere of UCSF attracted him over the stately, but "a little bit boring," campus in Palo Alto, Hall said.

"You feel like you're a part of real life at UCSF and in San Francisco," he told the group.

There is some irony that the space problems now threatening UCSF previously may have helped create a special atmosphere that contributed to the success of the campus. Proximity to other scientists and clinicians, shared labs, and a concern for ideas instead of rank or prestige helped foster an intellectual community at UCSF unlike any other, Hall said.

"It's an incredibly exciting time to be a biologist and UCSF is one of the places where the new biology has flourished most," he said. Faculty members have come from across the country and around the world to share in the free flow of information and unique atmosphere at UCSF — even if it means working out of tiny labs and offices more suited to be broom closets. But the bustle of the UCSF labs is approaching gridlock.

"All of you know that in the real world you only get so far on atmosphere and excitement," Hall told the CAG members. "In the end, you need room to do your work."

Good news for campus poets!

If you write poetry and are looking for a forum, here's good news: UCSF faculty member/poet David Watts and Arts & Performances are starting a new program called "Poetry on Parnassus."

The debut reading, which will feature campus and guest poets, will be on Friday, May 14, at 4 p.m. in Toland Hall.

All campus poets are invited to submit their work — immediately — to be considered for the series. Send three to five poems and a bio sketch to "Poetry on Parnassus," c/o Arts & Performances, Box 0234A. All forms of poetry are welcomed.

Also consider:

• **Student art show.** Wednesday and Thursday, April 28 and 29. This third annual event will feature artwork of UCSF students, grad students, postdocs, interns and residents. 10 a.m. to 6 p.m. each day in the Millberry Conference Center. Meet the artists at a reception on Thursday, April 29, from 4 to 6 p.m. Call Arts & Performances, 476-6761.

• **The Vocal Chords.** Friday, April 30. UCSF's own student a cappella choir will perform a spring concert: "In the Jungle...The Mighty Jungle." 8 p.m. in the Millberry Conference Center. $3/5. Call Arts & Performances, 476-6761.

• **Learn your knots.** Wednesday, May 12. Free workshop for people who want to learn or practice knots for all types of outdoor activities. 7 p.m. in the Millberry Conference Center. Sign-ups required. Call Outdoors Unlimited, 476-2078.

• **Travel around the world for a year.** Richard and Roni Patrone did it, and now they want to tell you about it, including how to put your responsibilities on hold, how to hold costs down and meet the locals. *Maybe* they'll show slides. Thursday, May 13, Millberry Conference Center, 7:30 p.m. Free. Call Outdoors Unlimited, 476-2078.

• **Kayaking & canoeing.** Outdoors Unlimited has scheduled a series of classes and outings now through July in sea kayaking, flatwater canoeing, moving water canoeing and whitewater canoeing. Call for schedule, 476-2078.

• **Half-off class prices at Millberry.** Sign up starting May 1 for the remainder of the spring classes and get the price cut 50%. Call the Fitness Desk, 476-1115.

• **Club Med to Mexico.** Remember, that's the grand prize in EMPACT!'s raffle drawing on Thursday, June 3, in Saunders Court. Tickets available at $1 each from EMPACT! or your local ticket seller. Call 476-2675.

Fill out those insurance forms or your family members' coverage will stop!

By now, all those employed prior to March 3, 1993 should have received in their home mail a form entitled "Insurance Enrollment for Eligible Family Members."

Read the instructions carefully. It is crucial that you fill out this form and return it by the deadline of Wednesday, May 5, 1993.

If you want single-party coverage, regardless of your current level of coverage, check the appropriate boxes and return it in the enclosed envelope.

If you want coverage for your eligible family members under UC's medical, dental, optical and/or legal plans, you must re-enroll your family members now. Even if you already have enrolled them, you must do it again on this form.

If you fail to re-enroll your family members, you will have single-party coverage and your family members no longer will be covered by UC-sponsored plans beginning September 1, 1993.

If you did not receive one of these forms and you were employed prior to March 3, call 476-6387.

If you were employed after March 3, 1993, or made changes in your plans following that date, you will be receiving a separate form from the campus benefits office at a later date.

The reason for this paperwork is a system-wide effort to computerize more records and reconfirm data on family members.

Service Awards

The awards listed were presented within the last year.

Deborah Avakian, 10 years, nursing.

Carl C. Bides, 15 years, EKG.

Juliane U. Carswell, 10 years, pediatrics.

Georgia Couderc, 10 years, nursing.

Yael Davenport, 10 years, Institute for Health Policy Studies.

Elizabeth Delgado-Yang, 10 years, nursing.

Mark Donovan, 10 years, mail services.

Diane Gathings, 25 years, Ambulatory Care Center.

Medsounds Continued

Getting the hang of those needle-less needles

As part of a hospital-wide push for stepped up infection control practices, the Post-anesthesia Care Unit (PACU) sponsored a safety fair last week along the main corridor of the OR.

Passers-by could stop for a demonstration of the new needle-less needle recently introduced throughout the hospital. It's a much safer way of drawing blood and giving medications through IV lines, explains the PACU infection control liaison nurse, Sheila Gleeson. "But it means a new way of doing things, and sometimes people are resistant to change." The safety fair was one effort toward raising awareness a bit.

The fair also coincided with the installation of new handwashing units in the OR and PACU, and, naturally, the exhibits featured a couple of the units for people to try out. Because of a lack of sinks in the area, dispensers of germ-killing rinse have been installed to encourage handwashing compliance.

The fair featured several guest educators, including fire marshall Catherine Shypert, who demonstrated procedures for chemical spills and fire safety. There were displays addressing proper safety garb, laser safety, instrument handling safety and other issues pertinent to the OR and PACU.

Want to do something similar in your area? Call Infection Control. The department's Evie McDonald helped the PACU staff organize this event. If you're not up to a fair, they have plenty of other ideas to encourage safety in your area. The number is 476-5793.

PACU's Connie Vedar (right) tries her hand at the needle-less needle under the supervision of colleague Sheila Gleeson.

Happy Volunteer Week

To celebrate National Volunteer Week, which extends through Saturday, April 24, hospital volunteers from Mount Zion and Parnassus will be honored at a luncheon at the Ritz-Carlton, San Francisco on Wednesday, April 28.

About 275 awards will be issued for hours served, including top hour-earners Miriam Stoff, who has put in 14,000 hours of volunteer time at Mount Zion, and Lucy Filippini, who has put in 13,500 volunteer hours at Parnassus.

The luncheon speakers will include Ralf Jeworowski, a clinical nurse III in the Urology Center, and student volunteer Kerry Davidson, whom Ralf supervises. The two will address the issue of volunteerism from two different perspectives. Likewise, Mount Zion nurse manager Teresa Hoffman and volunteer Bobie Nathan will offer their perspectives.

Check the next issue of *Medsounds* for the highlights of the event.

Money $ense for African American senior citizens

When the Center on Aging's Consortium for Elder Abuse Prevention conducted an informal survey at senior centers and organizations, it was discovered that financial abuse was a major concern in the African American older community.

Thus, the Consortium will sponsor financial workshops and resource fairs geared for this segment of the population during May as part of Elder Abuse Awareness Month.

Called "Money $ense for African American Seniors," the free events will take place in the Western Addition and Bayview-Hunters Point neighborhoods. The first will take place on Saturday, May 15, at the Third Baptist Church in the Western Addition, 1399 McAllister, from 9 a.m. to 1 p.m. The second event will be held on Saturday, May 29, at the St. James Baptist Church in Bayview-Hunters Point, 1470 Hudson Avenue, from 9 a.m. to 1 p.m.

The fairs are designed to create one-stop shopping for information. The workshops will feature presentations and discussions with legal experts from the firm of Lofton & Lofton. The Loftons, a mother, son and daughter team specializing in elder law, have made a number of appearances before African American audiences throughout the Bay Area.

According to Lisa Nerenberg, director of the Consortium, financial abuse can range from "blatant misappropriation of money to simple mishandling of one's personal funds.

"What we want to do is provide education in financial management," she says, "such as setting up automatic direct deposits in banks of social security checks or pensions."

For further information on the programs, call the Consortium at 750-4188.

My turn as a patient

(from page 8)

about the risks.

The genetic counselor explained that there never had been such a case at UCSF, that these cases most likely were the result of an inexperienced physician performing the test. More real is the possibility of miscarriage, both for amniocentesis and CVS, and you have to weigh the benefit of the testing against the risk of the test itself.

For my age, the risk of Down's Syndrome is something like one chance in 50, so obviously I chose to go for the testing. And based on UCSF's record, I went for the CVS. Besides, with either of these tests you can find out whether you're going to have a boy or girl, and I was dying to know — the sooner the better.

On the day of the test I was surprised when Mitch Golbus himself walked into the room. This was the guy who practically wrote the book on the procedure at UCSF, and he was the one who showed up to do the test. I thought it was going to be a resident! Nothing against residents, it comes with the territory, but I have to say it was a pleasant surprise. At that point I more or less stopped worrying about limb deformities.

About a week later, the genetic counselor called and said all was well — no Down's Syndrome — and did I want to know the sex?

"Looks like a little girl," she said.

Hooray! Hooray! Hooray! Hooray! Hooray!

The next seven months proceeded more or less without complication. I felt sick morning, noon and night day after day, but this was not considered a complication. I just couldn't reconcile the fact that I could feel so lousy all those months and that a healthy baby could be growing inside me. Every time I came in for a check up, I would ask the doctor or midwife about it, and I got sympathy, but no cure. "You know what they say," everyone kept telling me, "the sicker you are, the healthier the baby."

I dragged myself into work every day, performed at a low level, complained constantly and asked other women how they did it when they were pregnant. A lot of them said, "I felt great the whole time."

As the date approached, I started thinking a lot about what giving birth was going to be like. Most women I talked to said, "You won't believe how much it hurts." Our childbirth preparation instructor said it hurts but you get through it, ideally without too much medical intervention. The doctors said they wouldn't do anything we didn't want, unless they had to. My husband Bob and I assumed we wouldn't be forced to do anything we didn't want.

What we imagined and how it turned out were somewhat different. We now laugh when we think how we nearly shooed the anesthesiologist out of our room the night we arrived at the hospital, when she came in to explain our options for pain control. "Not for us!" we said.

The next morning, when I still hadn't dilated past 3 centimeters (you're ready to deliver when you reach 10), the doctor suggested a drug called pitocin to speed things up. Instead, Bob and I decided to leave the hospital. Our idea was to walk around and see if things would speed up naturally.

By 5 p.m. we were back. I was worn to a frazzle from the pain and lack of sleep of so many hours of labor, but anxious to see how far I was dilated.

Still at three!

Wasn't this baby ever going to come out? With guidance from the doctor and nurse, we decided it was time for the pitocin; and furthermore, for an epidural. The latter is pain killer administered in the spine, to provide relief from the strong contractions produced by the pitocin.

I actually have fond memories of the night that followed. I felt fine. Bob and I dozed or chatted with our nurse throughout the night while the contractions were building. By the next morning I was dilated to nine centimeters, and at 11:30 a.m., our perfect little baby was born.

I had heard stories about the correlation between medical interventions and cesarians, like how the pain killers deaden you to the point where you can't push. But maybe that's like the CVS test that resulted in limb deformities — performed by someone less experienced or competent than the people here.

I think that's the moral to this story. When it was all over, it struck me that from the moment I began my prenatal care to when I walked out the door with my baby, we were in really good hands.

When I received a patient questionnaire in the mail asking about my hospital stay, I found it to be filled with questions about every little thing, from the food, to room comfort, to discharge, etc.

I guess I had opinions on these things, but to tell the truth, all that really mattered was the wonderful nurse (Cathy Camenga) who saw us through the night before the birth, the other wonderful nurse (Kathy Macaulay) who saw us through the delivery, the great anesthesiologist (resident Chris Cardone), the understanding doctor (Patty Robertson) who guided us through labor, the subsequent doctor (Bill Parer) who put us at ease during the delivery, and all the other members of the faculty group and the hospital staff who made this experience a good one.

If I ever have another baby, I want to have it here.

Dinner dance for Family House

A Family House benefit is coming up on Saturday, May 8. Reservations for the dinner-dance and auction, to take place at the Nikko Hotel, are available now by calling 476-8321. The cost is $75 a person.

Since 1981, Family House has provided a home away from home for families of kids being treated for cancer at UCSF. Family House was founded with a grant from the Koret Foundation, but continuing costs of upkeep are funded by donations and fundraising efforts such as the May 8 event.

Family House sleeps 10 families and provides kitchens, a laundry, a playroom and living rooms. In response to growing demand, the McKesson Family House Annex located in Long Hospital was opened in 1987 as a lounge and sleeping room. Both places usually are filled to capacity year-round.

Finally, windows!

Administration's Rosanne Rappazini (left) and Claudette Parish are doing something they could never do before — look out a window! At the beginning of April, the administrative staff vacated windowless L 103 for a move across the street to the window-lined fifth floor of Millberry East. It rained shortly after the move, and apparently there were crowds of people gathered at the window for the novel experience of looking out at the weather. Following the move, all phone numbers remain the same, although the box number changed to 0296, except Helen Ripple and Judy White. Their box number remains 0210. The new fax number for Medical Center Administration is 476-2317.

Big day for the Heart/Lung Transplant Service

One day a couple of weeks ago, things were really jumping for the Heart/Lung Transplant Service. Three patients received transplants: Two single lung transplants and a heart transplant were performed all on the same day. Furthermore, all three organs came from the same donor.

"This was definitely a first for our service," says Celia Rifkin, heart-lung transplant coordinator. "Once we did two transplants in one day, but this broke the record. And the fact that the organs all came from one donor made it all the more phenomenal."

Frazier Keith performed the back-to-back lung transplants, while Gary Haas performed the heart transplant. Both procedures take from four to six hours.

Multiple transplants such as this are unusual for their service, explains Rifkin, partly because of the very limited availability of the organs. Lungs, in particular, are a difficult organ to procure. "It's a brittle organ, the first to become infected, and we can't use it for transplant unless it's in very good shape," she says.

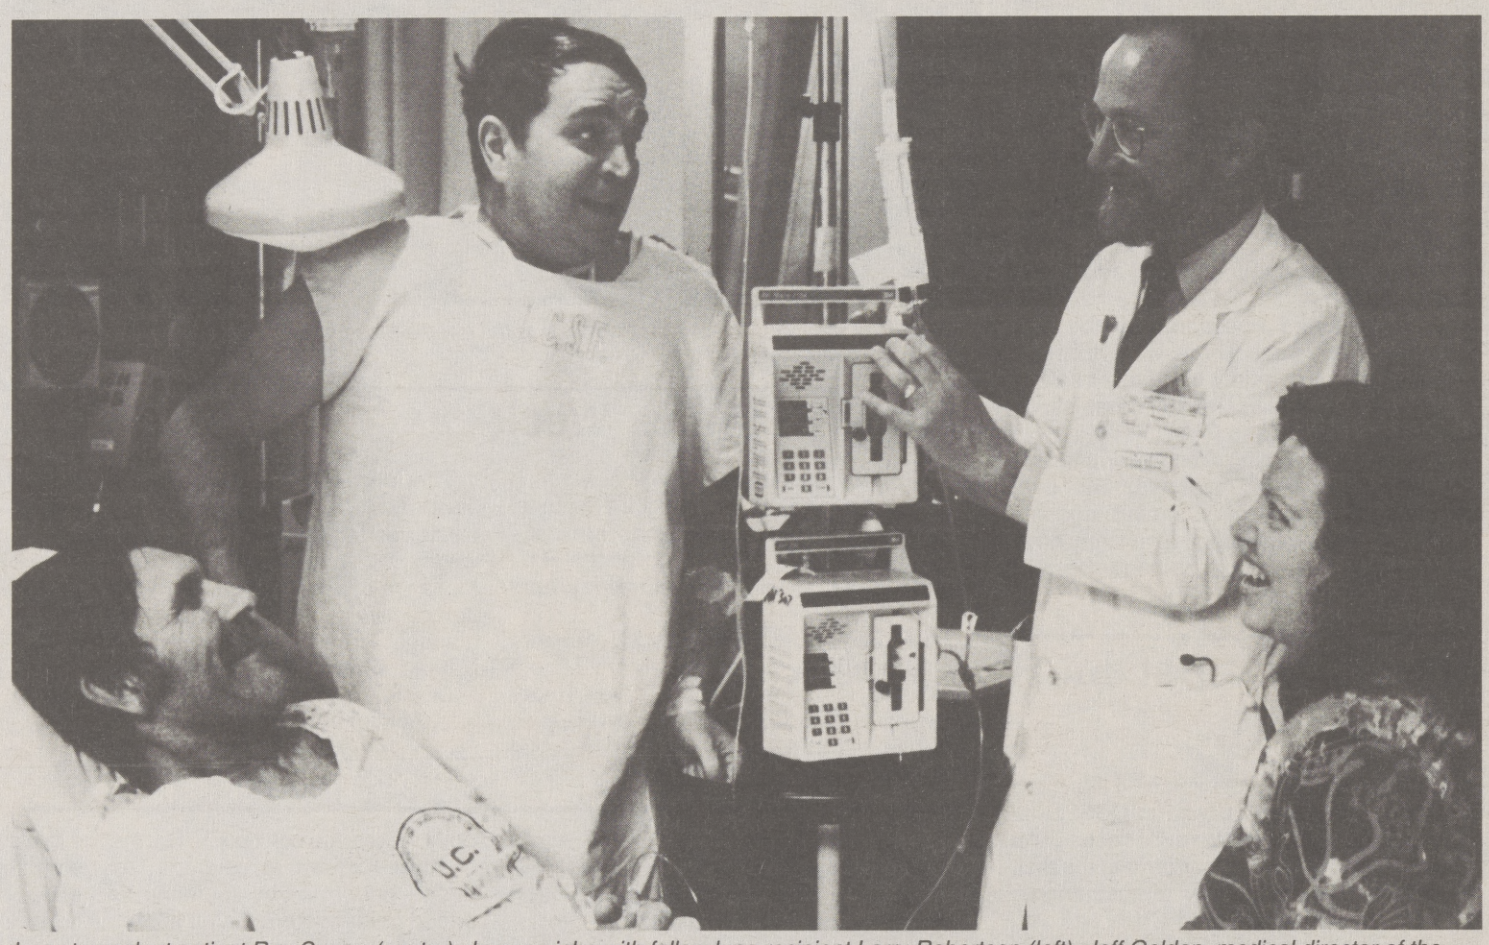
Also, the procurement area for hearts and lungs is limited to a 1000-mile perimeter, while the kidney and liver procurement area extends across the nation.

"The reason for this," she says, "is the shorter ischemic time for hearts and lungs." This is the length of time that the organ can remain viable out of the body. The ischemic time for a heart is under four hours; for lungs, it's six to eight hours. Kidneys, on the other hand, can be put on a pump and be preserved for many hours longer, explains Rifkin.

This also means the patients have to get here in a hurry. The two lung transplant patients live in Northern California, so they ended up flying here together in the same plane. The medical transportation company first picked up Larry Robertson in Eureka and then stopped for Roy Curran in Weaverville.

By now the two men appear to have a developing friendship — or is it a kinship?

"We definitely have something in common," joked Curran from his hospital room on 7 Long a week following his transplant. Two doors down, Robertson was wondering good-naturedly if sharing lungs from the same donor meant they were in some way related now.



Lung transplant patient Roy Curran (center) shares a joke with fellow lung recipient Larry Robertson (left), Jeff Golden, medical director of the Lung Transplant Service and Celia Rifkin, heart/lung transplant coordinator.

Both men, who formerly worked in the lumber industry, suffered from emphysema and were oxygen-dependent. Robertson, in addition, suffered from a rare enzyme deficiency in his lungs that usually shows up in a much older person. The condition was exacerbated in his case by 20 years of smoking, he explains.

Robertson spent 2 1/2 years on the waiting list for a lung, while Curran waited about six months. According to Rifkin, both men are recovering well and have a good prognosis.

Still recovering in intensive care at this writing was the heart transplant patient, Bennie Brower — a name many people around here may recognize. Brower was the manager of LPPI Building Services for nearly 19 years, from 1973 to 1991. A visit to his bedside found him sitting up and alert, so hopefully by this reading his recovery is progressing.

The heart transplant program at UCSF was established in 1989, and 55 transplants have been performed to date. The lung service was added a year and a half ago, and the two recent transplants bring the total to eight.

Organ & Tissue Awareness Week

National Organ & Tissue Awareness Week, which ends April 24, brings true cause to celebrate at UCSF. Since the beginning of 1992, 36 transplants have been performed at UCSF as a result of personnel providing families with the option to donate organs and tissue.

My turn as a patient

First person

by Dawn Finch

After seven years of doing *Medsounds* and writing countless stories on UCSF patients, I finally became a UCSF patient myself. I had a baby in February, and thus experienced first-hand what it means to be in the hospital here.

I returned from maternity leave last week, and as I was looking around for story ideas, it occurred to me that I could do a patient story on myself.

Here's the background: I live in the East Bay but work here, so I thought I would get my prenatal care through the Ob/Gyn Faculty Group at UCSF and then deliver at a hospital closer to home.

I mentioned this to a faculty group member during one of my initial visits, and she assured me I wouldn't have any problem getting across the bridge in time for the delivery. "First baby? she chuckled. "You'll have plenty of time to get here."

(Later, after I had decided definitely to deliver here, it became my fantasy that I would work right up until I went into labor, then walk upstairs and have my baby. The way it actually happened is that about mid-January I had this feeling I was going to go into labor any minute, so I stopped working and went home. Then I waited for three weeks before it finally happened.)

The first eventful episode in the prenatal care was the genetic testing. I'm 41, so the risk of Down's Syndrome at this age is way up there. To test for this and some other genetic defects, one has a choice of amniocentesis, in which amniotic fluid is drawn through a needle through the abdomen; or chorionic villus sampling (CVS), in which a bit of the fringy part of the developing placenta is drawn and tested.

Dawn Finch (right) with baby Beebe and ob/gyn faculty group member Jeannette Brown

Amniocentesis is the old stand-by. Hundreds of thousands of women have taken this test. CVS is newer and not as tried-and-true, but it can be done much earlier — at nine or so weeks instead of 15.

I was all in favor of the CVS, but one of the disadvantages of working in the News Office is that there's too much information available. Someone produced a bunch of literature about CVS causing limb deformities, and I immediately was on the phone to Mitch Golbus' office (where the test was to be performed), asking

(continued on page 7)

Nursing award time!

This is the time of year when a number of major nursing awards are presented to outstanding staff members at all the clinical sites — Moffitt/Long, the ACC and Mount Zion.

Some of the awards, including The Distinguished Nurse Award, are being presented on Founders Day (see insert this issue).

Many others will be presented during Nurses Week, scheduled this year the week of Monday, May 3, through Friday, May 7. The award ceremonies will take place as follows:

- **Tuesday, May 4 — ACC awards reception.** Three major awards will be presented, one for outstanding LVN and a second for outstanding RN or nurse practitioner, plus the Helen Lawler Nurse Practitioner Award. Noon to 2 p.m. in A 326.
- **Wednesday, May 5 — Parnassus awards reception.** Eight awards will be presented this year, including three new ones: one for the perioperative division and separate awards for outstanding hospital assistant and senior vocational nurse. Also, special awards will be presented to Clinical Nurse IIs and IIIs nominated from each division. 4:30 to 6:30 p.m. in the Millberry Conference Center.
- **Thursday, May 6 — Mount Zion award reception.** Seven Partners in Health Awards will be presented, four to RNs, two to LVNs and one to a nursing assistant. 2 to 4 p.m. in the Hellman Conference Room.

Please see the May 22 issue of *Medsounds* for coverage on the award winners, and please see the inside *Today/Tomorrow Calendar* for further information on Nurses Week events.
